

A GREAT VICTORY FOR DEMOCRATS

Was the Result in Kentucky Yesterday.

BECKHAM CARRIES THE STATE

By Over 35,000—Ben Johnson Wins in District By Over 5,000.

LOUISVILLE ADDS TO VICTORY

Yesterday was a quiet election day in Hartford and throughout Ohio county. In Hartford there was little to indicate that anything out of the ordinary was taking place. A very light vote was cast in all the precincts, only about 65 per cent. of the normal vote coming to the polls. The result in Ohio county is summed up as follows:

Thirty-two out of 34 precincts in Ohio county give for Senator, long term:

Beckham	1,793
Willson	1,767
Vance	154

Missing precincts will increase the Democratic plurality by 45 votes, giving Beckham 71 plurality in Ohio county.

Thirty precincts give for Senator, short term:

Camden	1,675
Bullitt	1,735
Nicholas	112

The race for Congress was as follows:

Johnson, Democrat	1,331
Ball, Republican	1,756
Jones, Progressive	86

The missing precincts will increase the Democratic plurality by 85. This will make Johnson's plurality 20 in the county. Ben Johnson's majority in the District will be about 5,000. Johnson carried his own (Nelson) county by 1,100 majority.

The Socialists polled about 275 votes in the county.

Kentucky goes Democratic by from 35,000 to 40,000. Louisville gives a Democratic majority of over 12,000.

The Third Congressional District gives Thomas (Dem.) 1,600 majority. Daviess county gives 700 Democratic majority, while McLean goes the same way by 300 and Breckenridge does likewise by 40.

Indiana is very close. New York goes Republican by 34,000. The Democratic candidate for Governor in Ohio was defeated. Congress will be Democratic by a reduced majority.

ELOPING COUPLE WERE DROWNED WHILE FLEEING

Evansville, Ind., Nov. 2.—Ivan Heer and his sweetheart, Miss Ruth Rechman, both of Cave-In-Rock, Ill., were drowned in the Ohio river a few miles below here this afternoon and up to a late hour to-night their bodies had not been recovered, although several attempts had been made to find them.

Heer and Miss Rechman were in a skiff eloping to Caseyville, Ky., where they were to have been married. Their skiff struck a snag and the craft rapidly sank. Occupants of a launch nearby tried to save the elopers, but were unsuccessful.

Heer was about 22 years old and Miss Rechman was 20 and a popular young woman of Cave-In-Rock.

WAR IS FOUGHT BY BOYS

—STATISTICS PROVE IT

That war is fought by boys is a familiar truth that we often forget. But the records of our own Civil War prove it overwhelmingly. The department rolls show that in the great rebellion there were enlisted

in the army of the North 2,778,309 men, and of these 25 were 10 years old and younger, 225 12 years and under, 1,523 14 years old and under, 844,891 16 years and under, 1,151,438 18 years and under, 2,159,798 21 and under and 618,511 22 years and over. Thus the average of the whole army was 19.7 years. When war thus takes away the young manhood of the country, who can estimate its cost?—[Chicago Post.]

RUSSIAN SPARTAN-LIKE AT HIS SON'S DEATH

Petrograd, Oct. 31.—The Russian journal *Sviets* tells the following story of the Spartan conduct of Col. Lopoukhine. He was listening, after the first great battle in Galicia, to the reading of the report of his regiment's casualties.

"We have lost 200 killed and wounded," he was told.

"How many soldiers killed?" demanded Col. Lopoukhine.

"So many."

"How many officers killed?"

"Only one."

"What is the name of this officer?"

"Lieut. Lopoukhine."

"Not a muscle of Col. Lopoukhine's face moved."

"Where was the officer killed?" he asked.

"The place was indicated. He went to the body of his dead son, dismounted from his horse, kissed the forehead and lips of his child, made the sign of the cross, remounted, and continued giving orders."

A MOVEMENT TO SUSPEND WAR ON CHRISTMAS DAY

From London comes the information that a group of clerics and educators have started a movement to induce the warring Powers to agree to an armistice, wherein all hostilities shall be suspended and all war shall rest, for the period of Christmas day—just for that, and nothing more. It is an agreeable expression of sentiment.

But will men of any country who accurately estimate the meaning of what has happened in Europe since the 1st of August, and what is probably happening there daily, hang much expectation on such a movement? Nothing, to be sure, could be more crudely cruel, more against the spirit of civilization, than to let the engines of war's destruction continue to kill men on Christmas day. What is there in all this war which is not in violent discord with the spirit of Christ? There is no Christianity, no humanity, least of all is there any sentiment, in this war. Let no reasoning man expect that any influence of school or church will be potent to make the fighters pause. The spear that knows no brother knows no softening influence of the mild spirit of Christmas.—[New Haven Register.]

House Burned.

The house occupied by Mr. T. M. Baughn, of the Washington neighborhood, three miles north of Hartford, was burned about 9 o'clock last Saturday morning. Mr. Baughn was not at home and the fire had gained such headway when discovered by his wife that but few things were saved. The loss in household goods is estimated at about \$100. No insurance.

The residence, which was owned by Rev. J. L. Burton, of Leitchfield, Ky., was valued at about \$750. It is not known whether or not he carried insurance. The fire is supposed to have been caused by a defective flue.

Cattle Barred.

Frankfort, Ky., Nov. 2.—Commissioner of Agriculture J. W. Newman to-day declared a quarantine against all cattle, sheep and hogs in Ohio, Indiana, Illinois, Pennsylvania and Michigan, and from noon yesterday no such stock from these States may be delivered anywhere in Kentucky.

He exempted from the order Kentucky dairy herds stationed in Chicago at the National Livestock Show and said they may be returned to this State under supervision.

At a Ripe Old Age.

Montejo, the old family horse of Judge Rollin Hurt, died one night last week. He was 32 years old, and had been driven thousands of miles by his owner. Three or four years ago Judge Hurt pensioned Montejo by directing that he was to be neither ridden nor driven, but kept on the pasture where the grass was green and stabled and fed in cold weather.—[Columbia News.]

ROCKEFELLER IS READY TO GIVE

Millions For Relief Of Non-combatants

IN THE EUROPEAN WAR ZONE

A Ship Loaded With Provisions Goes To the Starving Belgians.

ACTION ABSOLUTELY NEUTRAL

New York, Nov. 1.—The Rockefeller Foundation has determined to employ its immense resources for the relief of noncombatants in the countries afflicted by the war and stands ready to give "millions of dollars if necessary" for the purpose.

This was announced to-night by John D. Rockefeller, Jr., President of the Foundation.

In pursuance of this philanthropy the Foundation will send a commission to Europe in a few days to report first hand as to how, when and where aid can be rendered most effectively. At a cost of \$275,000 it already has chartered a ship and loaded it with 4,000 tons of provisions for the relief of the starving Belgians.

"This action is taken," Mr. Rockefeller says, "as a natural step in fulfilling the chartered purpose of the Foundation, namely, 'to promote the well-being of mankind throughout the world.'"

The ship is the *Massapequa*, the largest neutral vessel now in New York harbor, and it will sail Tuesday morning direct for Rotterdam with a certification from the British Consul at New York that its cargo is destined for the use of Belgian noncombatants only, and should not be delayed in transit. The supplies are consigned to the American Consul at Rotterdam and will be distributed by the Belgian Relief Commission.

Mr. Rockefeller has been in communication with Ambassador Page at London and made public a cablegram in which the Ambassador describes the dire need of the Belgians and says that "it will require a million dollars a month for seven or eight months to prevent starvation."

"In fact," the Ambassador said, "many will starve now before food can reach them." He added that the British Government forbids the export of food, and that none can be bought on the continent.

It was in response to this urgent message and a similar one from H. C. Hoover, of the American Relief Committee in London, that the foundation decided to send a relief ship the earliest possible moment.

Mr. Rockefeller makes clear in his announcement that whatever steps are taken by the Foundation in the administration of its relief work will be "absolutely neutral." The Commission of Investigation will be headed by Wickliffe Rose, Director General of the International Health Commission, and will visit the several countries affected by the war.

A SUCCESSFUL SCHOOL FAIR AT GREENVILLE

Greenville, Ky., Oct. 30.—Never in the history of Greenville has there been such a crowd in point of numbers and enthusiasm as that which thronged the streets here to-day. Conservative estimates place the number present as 10,000 persons. Three or four thousand were in the parade, each school having a different uniform and all carrying banners. The parade first consisted of floats and wagons all decorated for the occasion with flags and bunting. One wagon, that of Powderly school, had 120 pupils in it. There were seventy-five of the wagons and floats and it required more than an hour for the parade to pass a given point. After the parade the pupils marched to the courthouse square and witnessed some intricate drills given by the Greenville High School.

All of the week the various school exhibits have been received and arranged in the court house, the Y. M. C. A. building and other buildings. They were graded yesterday and prizes awarded. The exhibits covered a wide range of activity, from the work done in the school room to manual training, domestic science

and agriculture. The exhibits were excellent. Several persons prominent in educational work in the State were present. All pronounce the School Fair of Muhlenberg county as excellent.

This is the third fair that has been held and at none of them has there been less than 5,000 persons present. To-day there was easily twice that number. Two or three "moonlight school" delegations were noticed in the parade, as well as Mothers' Clubs and School Helpers' Clubs. One Good Roads Club was in the parade.

PRIEST WHO WORRIED SENT TO SANATORIUM

Owensboro, Ky., Oct. 30.—It was necessary to-day for officers to take the Rev. Christian Weigan, pastor of the Catholic church at Curdsville, in charge. Father Weigan had two brothers in the European war. One was fighting with the Prussian army and the other with the Belgians. Recently he received word that one of them had been killed in battle. He has been worrying over the war and it is feared the news of the death of his brother impaired his mind. He became violent yesterday and last night refused to admit the officers to his home. This morning another priest persuaded him to submit and he was brought to Owensboro. It was arranged to send him to a sanatorium in St. Louis, and he was taken there to-night. He came to this county from Texas a year ago.

W. A. WILGUS ENDS OWN LIFE AT HOPKINSVILLE

Hopkinsville, Ky., Nov. 1.—W. A. Wilgus, a prominent business man and a Democratic politician, committed suicide this morning in his room at W. S. Holmes' residence, where he made his home. Mr. Wilgus was born in Cadiz, April 12, 1859. After learning the printers' trade he came to Hopkinsville. He was one of the founders of the Hopkinsville Kentuckian and for many years was associated with Charles M. Meacham in its publication. Mr. Wilgus was one of the few honorary members of the Kentucky Press Association. He was postmaster of Hopkinsville during President Cleveland's last administration. He was also connected for twenty-five years with the Chesapeake & Ohio railroad as excursion agent. During the last few years he had been managing director of the Planters' Hardware Company.

Mr. Wilgus shot himself through the heart while lying in bed. Hearing the noise Mr. Holmes went to the room and found Mr. Wilgus dying. He had been greatly depressed on account of ill health and no other cause is known for his act. He was well-to-do. His wife died fifteen years ago and he leaves no near relatives. Mr. Wilgus was a charter member of the Elks' Lodge, which will conduct the funeral to-morrow. Mr. Wilgus was keenly interested in political affairs and was chairman of the Reception Committee which planned the big Democratic rally here Friday and much of the success of the occasion was due to his efforts.

BLEW UP HOME AND FAMILY FOR AFFINITY

St. Louis, Oct. 31.—A written confession that he blew up his home with dynamite, killing his sleeping wife and four small children, was given to the police here to-day by Scott Stone, a United States army recruit, arrested yesterday at Jefferson Barracks. Stone's farmhouse at Tolono, Ill., was burned September 28 last. Mrs. Stone and four children, the oldest five years, perished in the flames.

Stone said in his confession that he committed the crime to be free to go away with a woman he knew only as Lucille. Sixteen days after the destruction of his home and family, he re-enlisted in the army under an assumed name at Mattoon, Ill. He was arrested at the barracks yesterday at the request of Champagne county, Illinois, authorities, by whom he had been under surveillance since the crime.

Commits Suicide.

Warsaw, Ky., Oct. 31.—Albert G. Graham, a well known Gallatin county farmer, who lived about five miles from Warsaw, committed suicide by cutting his throat with a razor this morning. An unsuccessful attempt at suicide was made by Mr. Graham last summer, when he took

TURKEY THROWS HER HAT IN RING

And Lines Up With Germany and Austria.

IF PORTUGAL IS PUT IN LIST

There Are Now Eleven Powers Warring Against Each Other In Europe.

THE SITUATION AS IT STANDS

London, Nov. 1.—Turkey has definitely thrown her lot with Austria and Germany, and, if Portugal is counted, there now are eleven Powers at war, with prospects of three more—Greece, Bulgaria and Roumania—being drawn in.

The note which Great Britain presented to Turkey on Friday last, demanding an explanation of the actions of the Turkish fleet in the Black Sea, and the dismantling of the former German cruisers, the *Goeben* and the *Breslau*, was really an ultimatum to which Turkey was required to make a reply by Saturday evening.

So far as is known here, telegraphic communication with Turkey being interrupted, no answer was made, and the Ambassadors at the Ottoman capital of the Triple Entente, it is understood, demanded and received their passports.

Turkish troops, which have been on the Egyptian border for some time, already are reported to have crossed the frontier, while the Turkish fleet continues to menace Italian towns and shipping in the Black Sea.

Neither Russia nor Great Britain was unprepared for this move by Turkey, which, Government officials say, was known to be under the influence of Germany, and the allied Powers have forces on hand ready to oppose a Turkish invasion.

When the regular forces were withdrawn from Egypt to take part in the war in Europe they were immediately replaced by troops from home, much greater in numbers at least, and only last week they paraded through the streets of Cairo, making a splendid impression.

The problem both for England and Russia, however, is the attitude of their Moslem subjects, who, under ordinary circumstances, would prefer not to fight against Turkey. In this war, however, they have rallied to their flag, as have all other races under British or Russian rule, and care is being taken to explain to them that in this case Turkey, under the direction of Germany, has been the aggressor.

Another problem relates to the attitude of Roumania, Bulgaria and Greece. Bulgaria, owing her existence to Russia, and being under many obligations to Great Britain, besides being desirous of securing Thrace as far east as the Enos-Midia line, which she was awarded by the Balkan war, but which Turkey retook when Bulgaria was attacked by Greece and Serbia, would naturally side with the Entente Powers, but objects, political observers point out, to fighting side by side with Greece and Serbia.

Russia, however, is expected to ask Bulgaria definitely on which side she is ranged, as her mere neutrality under the circumstances appears insufficient. Should she join the Austrians and Germans, Roumania is almost certain to declare for the Allies, and Greece even before this, may decide to take her revenge on Turkey. In fact, it is believed that her treaty with Serbia would compel her to take action should the latter be attacked by Bulgaria or Turkey.

Italy, too, is brought nearer to war by the entrance of Turkey, for she has large Mediterranean possessions to protect which would not be safe with a strengthened Turkey.

TEDDY SAYS HE'S SEEN PLANS TO TAKE CITIES

Princeton, N. J., Oct. 31.—Col. Theodore Roosevelt told the students at Princeton in an address to-day that he had seen the plans of two empires now involved in the European war to capture great American seaports and hold them for ransom.

"It is this country's duty," said

Col. Roosevelt, "to put itself into such shape that it will be able to defend its rights if they are invaded. I myself have seen the plans of at least two empires now involved in war to capture our great cities and hold them for ransom because our standing army is too weak to protect them."

"I have seen deliberate plans prepared to take both San Francisco and New York and hold them for ransom that would cripple our country and give funds to the enemy for carrying on war."

AMERICAN VESSELS TO CARRY COTTON ABROAD

New York, Oct. 31.—The British Government having assured the State Department at Washington that cotton, not being contraband, would be allowed to go through to Germany and Austria, American vessels are being sought in this port to carry abroad the first shipments. Robert F. Rose, foreign trade adviser of the State Department, in making this announcement here to-day, said that the cotton would either be landed at ports in Holland and transported into Germany by rail or would be shipped direct to Germany.

It is planned to have the vessels bring back dyestuffs, cyanide, chemicals, medicines, sugar beet seed and potash on their return trips. Although Germany has lifted the embargo upon these products it has been stipulated that cyanide and dyestuffs must be carried in American bottoms. For that reason American vessels are being sought to carry cotton abroad.

\$25,000,000 IN GOLD IN A SINGLE SHIPMENT

New York, Nov. 1.—The largest single shipment of gold ever made by the United States Government—\$25,000,000—left Denver last Friday, and is expected to be locked safely in the vaults of the Subtreasury in this city to-morrow morning. The fact that this great fortune in gold was on its way was kept a closely-guarded secret until it neared New York. The shipment was made in care of the American Express Company over several railroad lines. It was packed in three special cars, and came through under heavy guard.

HUGGED STRANGE WOMAN—THOUGHT SHE WAS WIFE

Chicago, Oct. 31.—A stranger had entered the delicatessen store of Isidor Gandler. Mrs. Gandler advanced to wait upon him. He raised his eyes to her, and with a cry of joy cast his arms about her waist and covered her face with kisses. "Mary, my wife!" he cried, "at last I have found you!"

Indignantly struggling in his arms, Mrs. Gandler pushed him away. "I'm not your wife, I don't know you," she exclaimed, and called her husband.

"Why, Mary, you are my wife. Don't you remember me?" pleaded the stranger.

"She's not your wife!" interposed Gandler, now at the telephone calling the police.

"She is, too. I know my own wife—yes, and there's my baby!" the man shouted excitedly, as he caught sight of little Walter Gandler in the back room.

He was led away to the police station, sadly dejected. He gave his name as William Miller, traveling man, and explained that Mrs. Gandler was the living image of his lost wife, while the baby startlingly resembled his own child. The judge released him, and William Miller departed gloomily.

ORDER FROM FRANCE FOR A MILLION PAIRS BOOTS

New York, Oct. 31.—A representative of interests acting for the French government is in the market for 1,000,000 pairs of army boots. This order will keep several factories busy for a long time, as army boots are not easy to buy ready-made in million pair lots. It is probable that the New England factories will get the bulk of the business although a portion of the order may be handled by St. Louis firms. The agents here have demanded cash payment, however, as they will not take the business unless the bill is paid in advance.

The Rockefeller foundation has determined to employ its immense resources for the relief of noncombatants in the countries at war and stands ready to give millions of dollars if necessary.

TOBACCO OUTPUT MOST EXCELLENT

National Crop Nearly
Equals Last Year.

QUALITY IS RECORD-BREAKER

Especially In Kentucky—It
Came Jumping After It
Got Started.

THE LATER GROWTH COUNTED

The Cincinnati Enquirer says: Notwithstanding extremely adverse circumstances at planting time in practically every important tobacco-producing center, the tobacco crop of the United States for 1914 will be approximately as large as that of last year. This is a conclusion which is reached after a careful tabulation of the statistics gathered in every county of Kentucky, Ohio and Indiana by Enquirer correspondents, and through official sources in the other producing sections.

But for the drought which prevailed throughout Kentucky, Ohio, Indiana and Tennessee, and extended even into West Virginia and a part of the Carolinas, the largest tobacco crop in the history of the country would undoubtedly have been recorded this year. Preparations had been made for an enormous acreage, particularly in Kentucky, but all this was rendered impossible because of the unusually hot, dry weather during May and June, which not only prevented the proper transplanting of the young plants, but which burned up acre after acre of plants in the beds and some after they had been set out in the field. Tennessee and the Carolinas had likewise prepared for a big increase in the tobacco area, but similar conditions also prevented the consummation of this. Up in Wisconsin the farmers had raised more than the usual quota of plant beds, but in this section, too, the increased acreage was not to be, for early in the season there were heavy rains, which deluged the fields and literally drowned the young plants before they could get a fair start. In the New England section, however, conditions were very favorable, and the usual crop was raised without more than ordinary difficulty.

Up to the first of September the average tobacco grower in the section mentioned was thoroughly discouraged with the outlook, for the tobacco fields had made very poor progress during the long, dry summer. But with September there came a period of weather seldom experienced in the great tobacco belt—bright, warm days and cool, balmy nights, which afforded just the necessary amount of moisture required by the tobacco plants to make the best possible growth.

Everywhere the fields of tobacco began to show wonderful improvement, and during the entire month of September the growth was wonderful. Fields which had shown a very poor stand earlier in the season began to come to life and sturdy plants shot up practically overnight. Although the growth was rapid, it was not so much at the sacrifice of quality as might have been expected, and it is asserted that the Kentucky crop will be one of the finest ever housed. The same favorable weather conditions which prevailed during September continued into October, and the entire tobacco crop of the country was cut and housed under the best conditions imaginable. The unusually large size attained by the plants has more than made up for the slight deficiency in acreage, and the yield per acre will probably be heavier than in 10 years past.

The total tobacco yield of the United States, as compiled by The Enquirer, is 882,854,250 pounds, grown on an area approximating 942,016 acres. Last year the total production amounted to 883,504,500 pounds, raised on an area of 1,008,906 acres. Thus a decrease of only 670,250 pounds is indicated in this year's harvest, while the area harvested fell off 66,891 acres, or more than 6 per cent. as compared with last year. This showing may be considered remarkable in view of the very adverse conditions at planting time. The official Government estimate of the tobacco crop for the past three years was as follows: 1913, 853,734,000 pounds; 1912, 862,855,000 pounds; 1911, 905,109,000 pounds.

The harvested area in Kentucky fell short of last year by almost 10,000 acres, but owing to the progress of the crop in both the burley and dark sections at the close of the season the yield is placed at 280,152,200 pounds, an increase over last

year of 24,177,200 pounds, or about 14 per cent.

In North Carolina, the second largest tobacco producing State, the area shows a decrease of 15,000 acres as compared with last year, while the production shows a falling off of 10,500,000 pounds, or almost 7 per cent. Here, too, the showing is considered excellent, in view of the poor start the crop had at planting time.

THANKSGIVING.

Washington, Oct. 30.—President Wilson has issued a proclamation designating Thursday, November 26, as Thanksgiving day. The President's proclamation refers to the fact that the United States is at peace, while the rest of the world is at war, and is as follows:

"By the President of the United States of America.

"A Proclamation.

"It has long been the honored custom of our people to turn in the fruitful autumn of the year in praise and thanksgiving to Almighty God for His many blessings and mercies to us as a nation. The year that is now drawing to a close since we last observed our day of national thanksgiving has been, while a year of discipline because of the mighty forces of war and of change which have disturbed the world, also a year of special blessing for us.

"It has been vouchsafed to us to remain at peace, with honor, and in some part to succor the suffering and supply the needs of those who were in want.

"We have been privileged by our own peace and self-control in some degree to steady the counsels and shape the hopes and purposes of a day of fear and distress. Our people have looked upon their own life as a nation with deeper comprehension, a fuller realization of their responsibilities as well as of their blessings, and a keener sense of the moral and practical significance of what their part among the nations of the world may come to be.

"The hurtful effects of foreign war in their own industrial and commercial affairs have made them feel the more fully and see the more clearly their mutual interdependence upon one another and has stirred them to a helpful co-operation such as they have seldom practiced before. They have been quickened by a great moral stimulation. Their unmistakable ardor for peace, their earnest pity and disinterested sympathy for those who are suffering, their readiness to help and to think of the needs of others, have revealed them to themselves as well as to the world.

"Our crops will feed all who need food; the self-possession of our people amidst the most serious anxieties and difficulties and the steadiness and resourcefulness of our business men will serve other nations as well as our own.

"The business of the country has been supplied with new instrumentalities and the commerce of the world with new channels of trade and intercourse.

"The Panama Canal has been opened to the commerce of the nations. The two continents of America have been bound in closer ties of friendship. New instrumentalities of international trade have been created which will be also new instrumentalities of acquaintance, intercourse and mutual service. Never before have the people of the United States been so situated for their own advantage or the advantage of their neighbors or so equipped to serve themselves and mankind.

"Now, therefore, I, Woodrow Wilson, President of the United States of America, do hereby designate Thursday, the twenty-sixth of November, next, as a day of thanksgiving and prayer, and invite the people throughout the land to cease from their wonted occupations and in their several homes and places of worship render thanks to Almighty God."

Best Cough Medicine For Children.

"Three years ago when I was living in Pittsburg one of my children had a hard cold and coughed dreadfully. Upon the advice of a druggist I purchased a bottle of Chamberlain's Cough Remedy and it benefited him at once. I find it the best cough medicine for children because it is pleasant to take. They do not object to taking it," writes Mrs. Lafayette Tuck, Homer City, Pa. This remedy contains no opium or other narcotic, and may be given to a child as confidently as to an adult. Sold by all dealers.

Twenty miles of roadway around Chicago is soon to be concreted at a cost of \$12,000 a mile.

Only One "BROMO QUININE"

To get the genuine, call for full name, LAXATIVE BROMO QUININE. Look for signature of W. W. GROVE. Cures a Cold in One Day. Stops cough and headache, and works off cold. 25c.

BIG ORDERS FROM THE BELLIGERENTS

For All Kinds Field and
Camp Necessities.

MANY MILLS ARE KEPT BUSY

In All Parts Of the United
States—Argentina Is
Needing Elevators.

OPTIMISTIC SPIRIT PRESENT

New York, Oct. 31.—Favorable developments in the field of trade and finance accumulating recently, had a pronounced influence on sentiment this week. Nearly every section of the country is feeling the stimulus of large war orders from the European belligerents. The East, West, North and South are busy working on all kinds of military necessities, like saddles, clothing, harness, automobiles, horse-shoes and horseshoe nails.

One foreign Government has deposited \$3,000,000 to pay for tanned hides purchased from a Peabody (Mass.) leather concern. At the same time Lynn, Brockton and Haverhill shoe manufacturers are receiving valuable contracts. The Endicott-Johnson Company, of Leicester, has just completed its order for 100,000 pairs of shoes for Greece. The shoes filled 18 cars. One half of the order was paid in advance. The same company has also contracted for the delivery of another 100,000 pairs for one of the warring countries.

Max May, Vice President of the Guaranty Trust Company, who handles \$2,500,000,000 in foreign exchange, believes that the trade balance between this country and Europe has begun to shift in our favor and that in a short time a balance will be established to the credit of the United States. Mr. May says that one of the most encouraging signs is that South America, Cuba and Japan are increasingly drawing their bills on this market directly, instead of London, as formerly, which is lessening our debt. He says that the amount of this dollar exchange in recent months runs into the millions.

There has been extensive buying of automobile and auto trucks by foreign agents. A Syracuse concern will receive \$720,000 from England for 200 motor trucks. Some of the machines will be shipped to that country and to France. The negotiations were conducted by Arthur M. Laycock, of London, who has received the exclusive contract for supplying the allies with motor cars. These vehicles are the same as those used by the New York National Guard.

The Packard Motor Company is filling a contract for 450 trucks, and the Federal factory has orders for 300. Henry Ford reports an order for 2,000 cars, to be used as ambulances.

In the last few months the American Steel and Wire Company is said to have shipped more than 100,000 tons of horseshoes and 200 tons of horseshoe nails.

War orders are flowing into the Chicago district and as previously stated, Ohio, Missouri and harness makers and leather manufacturers of other sections, have decided to pool their business. In Southern Illinois and Indiana wagon makers are working on large European orders.

Several thousand tons of steel will be required at the start for the construction of London omnibuses, and there are now a number of inquiries in this market for it.

An American syndicate is reported to have proposed to the Argentine Minister of Agriculture to construct 150 grain elevators in that country. It is said that the original capital will be \$2,000,000 gold, which will be increased to \$6,000,000 as occasion requires.

CONSUMPTION TAKES 350 PEOPLE DAILY

Over 350 people succumb to consumption every day in the United States. Science proves that the germs only thrive when the system is weakened from colds or sickness, overwork, confining duties or when general weakness exists.

The best physicians point out that during changing seasons the blood should be made rich and pure and active by taking Scott's Emulsion after meals. The cod liver oil in Scott's Emulsion warms the body by enriching the blood; it peculiarly strengthens the lungs and throat, while it rebuilds the resistive forces of the body to avoid colds and prevent consumption.

If you work indoors, tire easily, feel languid or nervous, Scott's Emulsion is the most strengthening food-medicine known. It is totally free from alcohol or any stupefying drug. Avoid substitutes. 14-42 Scott & Bowne, Bloomfield, N. J.

sion requires. The petitioners ask for permission to issue warrants, the Government to have a participation of 33 per cent. in the profits. The promoters of the scheme are said to be Chicago men affiliated with grain interests there.

Recently there has been considerable agitation in Argentina regarding storage facilities for grain. Granaries are far too inadequate and laws compelling more care in storing the wheat and corn produced there, a large part of which is bought by other countries, are being considered.

That the interest of American manufacturers in South American opportunities are nation-wide is evident in the correspondence being received by the Lamport & Holt Line. At the office of the company in the Produce Exchange it was said to-day that from 25 to 50 letters had been coming in daily since the European war had stimulated the development and extension of South American markets.

Business men in the Central West and East were particularly interested and were asking about trade conditions, how to proceed to cultivate the Latin-American fields, the prospects of increasing business and steamer passage. This interest, it was said, was not confined to corporations and large business, but to the individual who wanted to start small ventures.

CHRISTIANITY IN JAPAN —IT HAS DONE WONDERS

Mr. Sherwood Eddy, in his interesting volume, "The New Era in Asia," thus describes the present status of Christianity in the Mikado's empire:

"The growth of the Christian church has been marked. Think of the growth of the last fifty years. The number of missionaries has increased during this period from 10 to 900; the Christians from none to 189,000 including 66,689 Roman Catholics and 32,246 Greek Catholic Christians, while the Christian community of adherents is two or three times as large as this.

"The Sunday Schools grew from none to 1,600, with 100,000 children under instruction. A leading Japanese estimates 'that there are in Japan 1,000,000 persons who are shaping their conduct according to the principles of Jesus Christ.' Fifty years ago there was no Bible in public circulation; to-day its circulation is numbered by millions.

"And there was then hardly a hospital or asylum in the land. Christianity has been the pioneer in establishing homes, hospitals and refuges for the poor, the blind, the fatherless, the insane, the leper, the outcast and the criminal.

"Such institutions were practically unknown in old Japan.

"Revenge was one of the cardinal virtues of Bushido, the moral code of the upper classes, but new Japan praises Christianity for its philanthropic fruits, and the adherents of the old faiths pay to it the tribute of imitation."

Important.

AWFUL HAVOC WROUGHT IN PEACEFUL BELGIUM

The whole story of Belgium's part in the present war reads like a fable from some martial age, and not like the sober record of the most populous and most industrious country of Europe. The Belgians are farmers and manufacturers. They are noted for the arts of peace and for social progress. They were perhaps, up to the hour that their country was invaded, one of the happiest, most prosperous and most progressive peoples of Europe. They numbered about 7,000,000. To-day half of Belgium is a waste, with cities and towns destroyed, fields and factories ruined and the people either exiles or living in poverty in the ruins of their homes.—[Leslie's.]

How To Give Quinine To Children.

FEBRILINE is the trade-mark name given to an improved Quinine. It is a Tasteless Syrup, pleasant to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate nor cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for Founce Original package. The name FEBRILINE is blown in bottle. 25 cents.

Successful Truck Raiser.

William Riney, an old Union county resident, now of the Purchase, is visiting relatives in the city and county this week. Mr. Riney is engaged in truck gardening near Paducah this year. Among other favorable reports of his work along this line Mr. Riney states that he realized the sum of \$300 from an acre and a quarter of cucumbers alone.—[Uniontown Telegram.]

Invigorating to the Pale and Sickly.
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

VOLIVA SAYS THE EARTH IS FLAT

And That Otherwise Water
Would Run Off.

SAYS GLOBE IDEA IS SILLY

Declares the Sun Is Only 3,
000 and Not 92,000,
000 Miles Away.

IDEAS OF A FAMOUS "TEACHER"

The Chicago Herald, in a recent issue, speaking of the leader of a religious sect near that city, says:

Wilbur Glenn Voliva, Overseer of Zion, spoke in Zion Temple yesterday on "Modern Astronomy, Higher Criticism and Evolution," to prove that the earth is not round and that it does not revolve.

He cited the following points to prove his contentions, and to show that if the earth were round:

The water would all run off.
Australians would have to wear hooks on their feet.

The Lord could not ascend and descend from heaven with the earth whirling eighteen miles a minute.

Cannon balls fired straight up would not come down in the same place.

Balloons would come half way around the world from their starting point.

Voliva drew diagrams on a blackboard to illustrate his arguments.

"The silly, foolish stuff I was taught and school children are taught, that the world is a globe, because ships disappear and because you can sail around it, is false," declared Voliva.

"No one sails around the earth, because it is not round. They just travel in a circle on a flat plane and come back to where they started.

"The professors at Northwestern and Chicago Universities who believe such stuff do not believe the word of God. I consign the Copernican theory to hell, where it came from. It is a demon-inspired theory."

"The earth is flat and has four corners, and its boundaries are fixed by snow and ice. The earth rests on water, and God never created more than one sun and one moon. This talk about millions of suns is all rot. The moon has its own light and the sun has its own. The sun is only 3,000 miles from the earth and not 92,000,000 miles away, as the initial teachings of modern science assert.

"If a man wanted to light a house, would he put his light a mile away? It would be just as absurd to put the sun such a long way off. Modern astronomy is a delusion from the devil.

"If the stars were bigger than the earth they would smash it to smithereens when they fell.

"People may laugh at this now, but in ten years I will make them laugh on the other side of their mugs."

An Active Liver Means Health.

If you want good health, a clear complexion and freedom from dizziness, constipation, biliousness, headaches and indigestion, take Dr. King's New Life Pills. They drive out fermenting and undigested foods, clear the blood and cure constipation. Only 25c at your druggist.

(Advertisement.)

GAY LIFE IN THE CITY —CHANCE FOR FARM BOYS

It's about time to put the kibosh on all this talk about keeping the boys on the farm. Why should a boy or young man want to stay on a farm when he can go to the city, and, after tramping through the heat, or cold, or rain, or snow for five or six weeks, land a fine, fat, easy, soft snap of a job as a motorman? Then all he will have to do will be to get up at about five a. m. winter and summer, swallow a boarding house breakfast that a hog on his father's farm would spurn, dash merrily to the car barn, take the abuse of a slave-driving car starter, and go gaily to work. Ah, what pleasure to stand all day in a vestibule that is perfumed with the smells of the unwashed bodies of just-over immigrant laborers, on their way to work in a sewer! Think of the fragrance of all grades of tobacco in cigarettes, in cigar and in pipes of any degrees of strength! It is simply great to breathe this spicy air all day. In the meanwhile one hears the sweet compliments of the ladies and gentlemen who do not happen to think of signaling when they want to get off, but who rightfully feel that the motorman should have known, if he was not such a

fat-headed lout, and who do not hesitate to tell him so. Oh, yes, its great. Every farmer boy ought to leave home at once and dash to the city. Think of the wages he'll get! Why, at the end of a month, after paying for board, room, laundry, clothes and uniform, union dues and assessments, he'll have almost enough to go to a movie show. But he probably won't go, because he'll be so all-in and so full of the poisonous reek that he inhaled all day, that he will tumble into bed to forget it until the alarm clock calls him to begin all over again.

FIELD SPORTS.

When you keep a boy interested in football, baseball, tennis, and the like, you lessen the chances that he will get interested in things not so good for him.

The Youth's Companion, since its enlargement, gives generous space to this matter of athletic training, and gets the best coaches in the country to write for it.

How to practice to become a first-rate pitcher, how to train for a race, how to learn the newest strokes in swimming—these and a hundred other topics of the greatest interest to boys—to girls, too, for that matter—are touched upon in this important department of The Companion.

And this is only a small part of the service which The Companion renders in any home which it enters. It has points of contact with a hundred interests.

If you do not know The Companion as it is to-day, let us send you one or two current issues free, that you may thoroughly test the paper's quality. We will send also the Forecast for 1915.

Every new subscriber who sends \$2.00 for the fifty-two weekly issues of 1915 will receive free all the issues of the paper for the remaining weeks of 1914; also The Companion Home Calendar for 1915.

THE YOUTH'S COMPANION.

144 Berkeley St., Boston, Mass.
New subscriptions received at this office.

Dependency Due to Indigestion.

It is not at all surprising that persons who have indigestion become discouraged and despondent. Here are a few words of hope and cheer for them by Mrs. Blanche Bowers, Indiana, Pa. "For years my digestion was so poor that I could only eat the lightest food. I tried every thing that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them, did I find the right treatment. I soon began to improve, and since taking a few bottles of them my digestion is fine." For sale by all dealers. (Advertisement.)

WHAT'S THE USE?

Weep and you're called a baby;
Laugh and you're called a fool;
Yield and you're called a coward;
Stand and you're called a mule;
Smile and they call you silly;
Frown and they'll call you gruff;
Put on a front like a millionaire
And some guy calls you bluff.

Piles Cured in 6 to 14 Days
Your druggist will refund money if PAIN-OINTMENT fails to cure any case of itching, blind, bleeding or protruding Piles in 6 to 14 days. The first application gives ease and rest. 50c.

Beyond Him.

"How did you happen to lose Mrs. Wombat's custom?"
"Some people are too finicky for me to understand," responded the grocer. "She got uppish because my cat was asleep in the cranberries."

MOTHERS OF DELICATE CHILDREN

Should Read the Following
Letter—Mrs. Slack's Story
About Her Child's Recovery
Is Entirely Reliable.

Palmyra, Pa.—"Three years ago my little girl had black measles which left her with a chronic cough and so awfully thin you could count all her ribs, and she coughed so much she had no appetite. 'Nothing we gave her seemed to help her at all until one day Mrs. Neibert told me how much good Vinol had done her little girl, so I decided to try it for my little one, and it has done her so much good she is hungry all the time, her cough is gone, she is stouter and more healthy in color and this is the first winter she has been able to play out in the snow, coasting and snow-balling without any ill effects.'—Mrs. ALFRED SLACK, Palmyra, Pa.

We know Vinol will build up your little ones and make them healthy, strong and robust, therefore we ask parents of every frail and sickly child in this vicinity to try a bottle of Vinol, our delicious cod liver and iron tonic without oil.

If we can induce you to try a bottle of Vinol as a body-builder and strength-giver for your child, and you do not find it is all we claim, we will return your money on demand.

James H. Williams, Hartford, Ky.

SIDELIGHTS ON WAR IN EUROPE

Active Soldier Has Hard
Work To Do.

HE CARRIES A HEAVY BURDEN

On His Back—Is Combination
Of Pack Horse and
Day Laborer.

ALWAYS MUST FIGHT OR WORK

If any of the young men of Europe went to the war imagining that it was to be an affair of bloodstirring charges, "thin red line of heroes," reviews to inspiring music and the pomp and glory that have been associated with battle, it is likely that they have long since been disillusioned.

Aside from the danger, the hardships and the suffering, the soldier of to-day is one of the hardest worked men the world has ever known.

While machinery in other fields has lessened the labor of the individual, the machines that have been devised for war serve no other purpose than killing the individuals more rapidly and at a longer distance.

The soldiers who are fighting in Europe to-day are working harder than any soldiers in history.

They are combinations of pack horses and day laborers.

A large part of their time is spent marching as rapidly as they can under their heavy kits, no matter how rough the road.

When not marching they spend most of their time digging trenches. Already thousands of miles of trenches have been dug by the soldiers in France and Belgium. In addition to the more elaborate line of defense which are constructed for a stand of any length the soldiers dig temporary shelters wherever they stop.

People who have glimpsed the battlefields of France and Belgium say the country resembles a huge rabbit warren because of the multiplicity of trenches.

So much digging has to be done that the pick and the shovel seem more appropriate than the sword and the gun as the symbols of war.

When he is not marching or digging the private spends his time shooting at an enemy he cannot see or being shot at by an invisible foe.

Occasionally he gets a bite to eat, and once in a while he sleeps. In the battles that have raged for days many of the soldiers have fought until they fell down and slept on the shrapnel-swept, bullet-ridden field.

In the retreat to Paris, says a writer in the World's Work, one French regiment went twenty to twenty-five miles a day in full marching order and fought between times.

This means that every man turns himself into a pack animal. Every infantryman is loaded with fifty or sixty pounds of kit, including his rifle, trenching tool, extra clothes, cooking equipment, etc. A healthy man unincumbered can walk four miles an hour. It is a good gait. But a soldier loaded down with a third his own weight and moving in large bodies does very well if he averages two and a half miles an hour. Where roads are narrow or bad the men in front delay those behind, and almost always there is mud or dust to contend with. The dust of thousands of shuffling feet, of men and horses, can be a blinding, choking cloud that adds much hardship to a march; and in mud the weight and balance of a pack makes marching a constant strain.

The field service regulations of the German army say:

"Marching constitutes the greater

part of the work performed by troops in war. The success of every operation depends on the unflinching execution of marches."

The French military authorities are said to train their soldiers in marching more than any other nation. They feel that this not only enables the men to get over ground more rapidly, but develops the power of endurance on the battlefield to the utmost.

The qualifications of a soldier may justly be rated in this order:

- First—Ability to march.
- Second—Ability to carry pack.
- Third—Ability to dig.
- Fourth—Ability to fight.

ALFALFA AS FOOD.

Puree of Alfalfa.
Roast Alfalfa-Fed Young Pigs.
Alfalfa Greens.
Alfalfa Salad.
Alfalfa Flour Muffins.
Alfalfa Bread Pudding.
Alfalfa Sirup Candy.
Alfalfa Flour Cake.
Alfalfa Tea.

The above menu is a possibility in the near future, if experiments now being made prove successful.

That is the opinion of Charles McCaffree, Commissioner of Immigration of South Dakota, who is exploiting the advantages of his State at the national dairy show.

Last night Mr. McCaffree entertained the students' dairy cattle judging team from the South Dakota University and others at dinner at the Saddle and Siroin Club.

Alfalfa flour muffins and alfalfa tea were two features of the dinner.

"Alfalfa some day may become a great food product," Mr. McCaffree said. "Experiments now being made in South Dakota, which is a great alfalfa producing State, indicate that it can be used in a variety of ways for human food. If it is an ideal food for live stock, I do not see why it cannot be made useful for human beings, and think of the blow to Mr. High Cost of Living!"

"Alfalfa flour makes very good bread and muffins, but it has not been placed on the market. Alfalfa also makes a very good sirup base which is used in making candy, and a soda fountain drink made of alfalfa had an extensive sale in Minneapolis and St. Paul this summer."—[Chicago Herald.

Can't Let Go His Job.

Lyman H. Marble, the postmaster here, has retained an attorney in an effort to be released from his official position. His term expired more than a year ago, but the Government has failed to appoint a successor to release him or his bondsmen. He is one of the town merchants.

The increase in mail matter since the parcel post was established has caused him serious losses, Marble says, and he has been compelled to place his own goods outside his store to make room inside for mail matter.—[Colton (Utah) Cor. New York Sun.

Don't Delay Treating Your Cough.

A slight cough often becomes serious, lungs get congested, bronchial tubes fill with mucus. Your vitality is reduced. You need Dr. Bell's Pine-Tar-Honey. It soothes your irritated air passages, loosens mucus and makes your system resist colds. Give the baby and children Dr. Bell's Pine-Tar-Honey. It's guaranteed to help them. Only 25c at your druggist.

Taken At His Word.

A suburban minister, during his discourse one Sunday morning, said: "In each blade of grass there is a sermon." The following day one of his flock discovered the good man pushing a lawn-mower about, and paused to say: "Well, parson, I'm glad to see you engaged in cutting your sermons short."

Cures Old Sores, Other Remedies Won't Cure. The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c, 50c, \$1.00.

WOOLY WRITER DESCRIBES A BIRTHDAY FUNCTION

A birthday surprise was given Mrs. Bell Jones Sept. 30th by the royal neighborhood the surprise was complete Mrs. Jones received several nice presents, including a banquet flowers and postal cards, the table was fairly groaned with good things to eat, which all did ample justice, after the dinner hour, the afternoon was spent music and conversation came loyal the brave and true and sing for the royal neighbors we are happy no matter where, or what it is we do, in winter we live in health, in summer work for wealth, but the time we love, is the birthday time, when we have a good old surprise one who was there.—[Meadville (Mo.) Messenger.

The German merchant marine in 1913 had a tonnage of 4,576,355.

EVEN CRIMINALS FEEL THE TOUCH

Of Patriotism Caused By
the War.

EVIDENCE IS SEEN IN LONDON

Crime Has Decreased Considerably Since Beginning
Of Hostilities.

SCHOOLS GETTING IN SHAPE

London, Oct. 31.—The patriotic fervor over the war has touched the souls of even burglars, pickpockets and strong-arm men. London's police records prove it, for crime has fallen off nearly 40 per cent. since the war began.

"Praise is due the criminals," said Robert Wallace, K. C., in addressing the grand jury at the London Sessions, "for the self-control they are exercising during this period of stress and anxiety."

A well known reformer, commenting on this, attributes much of crime to the dull animal spirits of youths brought up in wretched surroundings. Defiance of law and order offers them a means to escape from their dull drab environment and to indulge their propensities for romance and adventure. This they now prefer to seek at the cannon's mouth. A cross of honor or a corporal's stripes for valiant service may reclaim many who have heretofore been considered candidates for the gallows.

The annual report of the Prison Commissioners for the past year shows there has been a general decrease in crime all over Britain. Sentences to penal servitude are 797, as against 871 in the preceding year, while the imprisonments of all classes are 135,140, against 149,552.

British reform, the substitution of kind and helpful treatment for the harsh disciplinary methods of old, and mercy for young offenders, is held responsible for the change.

Since the retreat of the Germans from the vicinity of Paris, the city has to a great extent recovered its natural aspect, except for numerous closed shops, some of which are still boarded up and carry on their fronts a varied collection of official posters, emanating from the military government, announcing mobilization, details from the Department of Public Instruction relating to the reopening of the schools, from the Prefect of the Seine advising housewives to see that their fruits and vegetables are washed in water previously boiled, and other hygienic and administrative measures.

The reopening of the primary schools has brought out the usual number of pupils. In accordance with instructions from the Department of Public Instruction the session was opened by the teachers with a patriotic address to the pupils reviewing in simple words the causes of the war and the necessity

for fathers and brothers to be absent fighting for their country.

The Department of Public Instruction is arranging for the organization of examinations so as to avoid, so far as possible, the loss of a year to students who are unable to present themselves this year on account of absence at the front. It is understood that medical students will be permitted next year to take two years' examinations in one.

CHRISTIANITY'S TRIUMPH
GAINED 1602 YEARS AGO

The first great triumph of Christianity was gained 1,602 years ago, October 28, 312, when Constantine, the first Roman Emperor to accept the new faith, defeated his rival Maxentius at the Milvian Bridge, under the walls of Rome, and drove the enemy into the Tiber. Constantine had been chosen Emperor by the soldiery of Rome in 306, and directed his arms against Maxentius, his brother-in-law, who also sought the imperial throne. In a campaign in Italy, Constantine saw a flaming cross in the heavens, bearing the inscription, "In hoc signo vinces"—"Under this sign thou shalt conquer." Constantine then took the cross as his emblem, and was completely victorious over his enemies. By his conversion to the faith Christianity emerged from the condition of a suppressed and persecuted religion to that of one duly recognized by the Roman empire, and with the Emperor as its champion. The victory at Milvian Bridge, now known as Porte Mobile, assured the formal establishment of the Christian church.

BIG CLUBBING OFFER.

Below we submit the greatest clubbing offer we have ever made in connection with The Herald:

Hartford Herald 1 year.....\$1.00
Boys' Magazine, monthly.....1.00

Total.....\$4.25

We will send the whole bunch, one year each, to any address for only \$1.65. Did you ever hear of the like? Subscribe NOW. Address The Herald, Hartford, Ky.

Try This For Your Cough.

Thousands of people keep coughing because unable to get the right remedy. Coughs are caused by inflammation of throat and bronchial tubes. What you need is to soothe this inflammation. Take Dr. King's New Discovery. It penetrates the delicate mucous lining, raises the phlegm and quickly relieves the congested membranes. Get a 50c bottle from your druggist. "Dr. King's New Discovery quickly and completely stopped my cough," writes J. R. Watts, Floydale, Texas. Money back if not satisfied, but it nearly always helps.

(Advertisement.)

Had Under Dead Soldiers.

Writing to his wife in London, Private W. Bell said that during one fight German shells and bullets poured into the trenches like rain, and the soldiers were finally forced to lift bodies of the dead and get under them for safety.—[Kansas City Star.

Rheumatism Muscle Colds

"It is easy to use and quick to respond. No work. Just apply. It penetrates without rubbing."

Read What Others Say:

"Have used your Liniment very successfully in a case of rheumatism, and always have a bottle on hand in case of a cold or sore throat. I wish to say I think it one of the best of household remedies. I would not have used it only it was recommended to me by a friend of mine who, I wish to say, is one of the best boosters for your Liniment I ever saw."—J. W. Fuller, Denver, Col.

SLOAN'S LINIMENT

Good for Neuralgia, Sciatica, Sprains and Bruises.

All Dealers 25c.
Send four cents in stamps for a free TRIAL BOTTLE.

DR. EARL S. SLOAN, Inc. Dept. B Philadelphia, Pa.

Have You Poultry Troubles?

Cure the liver and you cure the bird. Nearly all poultry troubles are due to a disordered liver. Thousands of poultry raisers who use it all year round to keep their flocks in good health, highly recommend

Bee Dee STOCK & POULTRY MEDICINE

It's a Liver Medicine.
Also a strengthening Tonic.

Bee Dee STOCK & POULTRY MEDICINE is a splendid cure for liver trouble, roup and chicken cholera. Given regularly with the feed, in small doses, it also makes an excellent tonic.

25c, 50c and \$1. per can.
At your dealer's.

LOOK ON THE FIRST PAGE

Or the wrapper around your Herald. You will find a little yellow slip. It has printed on it your name and a date after it. The date shows when your subscription expires or when it did expire. This is all the book we keep of your subscription account, and there is no excuse for you not knowing just how you stand with THE HERALD. We are trying to get our subscription list on a strictly cash-in-advance basis, so as to avoid trouble and misunderstanding. We do not want to force the paper upon anybody against their will, but we want all that is due us. Please give this matter your very prompt attention. Look at that little yellow slip containing your name. It will tell you just what you need to know, without any explanation from us. If it is wrong in any way, let us know. Anyhow, please pay us what is due. It takes much money to run a good newspaper nowadays, hence we must keep our subscription accounts collected up. Either come to The Herald office and pay the arrears and a year in advance, or, if you are not coming to town soon, send us a check or post-office money-order for the amount due. We will appreciate it and it will make us think you really want the paper.

RUBBER ROOFING At Reduced Prices.

In order to reduce my large stock of Rubber Roofing I will make you a price that will save you money. If you are in need of Roofing see me while in town.

PAUL WOODWARD,
Hartford, Kentucky.

Hartford Herald---Only \$1 Per Year

SPECIAL NOTICE
in regard to
OBITUARIES, RESOLUTIONS
OF RESPECT, &c.

The Hartford Herald has adopted a new rule in regard to Obituaries, Resolutions of Respect, Cards of Thanks, &c., whether written personally or for lodges, churches or individuals, and that is, we shall charge at the rate of five cents per line for all such articles, except obituary poetry, which will be one cent per word straight.

The amount, in cash or stamps, must accompany each article, or it will not be printed. Six words average a line in ordinary reading and every separate character or initial letter counts as a word. The heading and the signature both count one line each, even if they are only a word or two. All obituary poetry, straight through, one cent per word. This ruling applies to everybody alike, without any distinction. Contributors please remember.

THE THRICE-A-WEEK EDITION OF
THE NEW YORK WORLD.

Practically a daily at the price of a weekly. No other newspaper in the world gives so much at so low a price.

The year 1914 has been the most extraordinary in the history of modern times. It has witnessed the outbreak of the great European war, a struggle so titanic that it makes all others look small.

You live in momentous times, and you should not miss any of the tremendous events that are occurring. No other newspaper will inform you with the promptness and cheapness of the Thrice-a-Week edition of the New York World. Moreover, a year's subscription to it will take you far into our next Presidential campaign.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and the Hartford Herald both one year for only \$1.65.

The regular subscription price of the two papers is \$2.00. Just think of it! Four papers a week, one year, for only \$1.65.

HERE'S THE PLACE!

PE-RU-NA LAXATIVE- TONIC

"I was taken with a severe headache and cold, which finally brought on constipation and bowel trouble. Physics of all kinds were used, and we were obliged to resort to the fountain syringe for help. I could drink castor oil like water, but it did no good. Salts were of no use. The doctors were puzzled. After using three bottles of Peru-na I consider myself entirely well." Mr. John B. Capers, No. 610 Pecan St., Fort Worth, Texas.

Those who object to Liquid Medicine will find Peru-na Tablets a desirable remedy for CATARRHAL CONDITIONS.

PE-RU-NA LAXATIVE- TONIC

The Hartford Herald

HEBER MATTHEWS, FRANK L. FELIX,
EDITORS.
FRANK L. FELIX, Pub. and Prop'r.

Entered at the Hartford post-office
as mail matter of the second class.

Through some strange delinquency the newspapers of Louisville have not yet included in their market quotations the prices of fresh horse, mule and dog meat.

There is one difference at least between the war in Mexico and the "organized murder" in Europe. None of the Mexican belligerents has claimed that God was on his side and helping in every shot fired.

Texas investigators have discovered that bats are enemies of mosquitoes and argue that the little broad-winged creatures ought to be protected. Formerly it was thought that the only function of bats was to carry bedbugs under their wings. The new theory is pleasanter to think of, anyhow.

If President Wilson had heeded the wild clamorings of the jingoes which were loud throughout the country some weeks ago, this country would now be at war with Mexico at a probable cost of \$400,000,000. If we were drawn into war with another first-class power, Congress would be compelled to assess at least a billion as a starter. As it is, a light tax on a few of the luxuries of life foots the bill.

In every community or district of the world where tillers of the soil make a practice of raising almost altogether some certain variety of the earth's product, they generally meet with adversity sooner or later. Frequently this happens where the soil is adapted to a variety of farm products. From far-away Brazil comes the news that coffee raisers find their business stagnated on account of the European war. It's the same story all over the world. There's a big lesson in it all for every thrifty farmer.

Next Friday, November 6, has been designated as Arbor Day in Kentucky and it should be faithfully and heartily observed. It is a day to set out trees and to plan for tree culture generally. Especially should the day be kept around the school houses of the country. The teachers should arouse their pupils to the importance of the splendid work at hand. Every pupil should enter enthusiastically into the duties of the day. Objectionable trees may be cut down and better trees planted. The idea is to get a fine growth of useful, hardy trees.

Horrible as the scene is to contemplate and distasteful as must be the comparison, there can be no doubt that the frightful war in Europe will insure greatly to the benefit of the United States. The conclusion is simple and almost certain. Manufactories over there are idle and are liable to remain so for months to come. Our big manufactories must take their place in producing necessities. Our farms must also furnish the famished and helpless Europeans with food. Let us not be delighted, but thankful only that we are able to meet the situation.

President Wilson has named Thursday, the 26th day of this month, as a day of general thanksgiving and prayer throughout the nation. If any people on earth ever had cause to give thanks to Almighty God for peace, happiness and general prosperity, the occasion embraces the souls who reside in the dominions of the United States. This fact must be obvious to everyone who stops even for a moment to contemplate our national situation and compare it with the balance of the world. The event should be more heartily observed this year than ever before.

Perhaps you think your lot is hard and that misfortune sits heavily upon your shoulders. Maybe you have a hard time getting along and you see no prospect of a change. But you should rejoice and be glad, even if matters should get some worse, if you will only let your mind's eye drift over towards war-stricken Europe. Over there two million refugees are wandering about in the most abject state of homelessness. This is not counting the millions of widows and orphans who will also have to pass through the rigors of a hard winter. Rejoice that your lot is a better one.

GOD AND VIRGIN MARY WITH HIM, SAYS KAISER

Petrograd, via London, Oct. 31.—The Gazette, which is now published by the Germans at Czenstochowa, Russian Poland prints the following proclamation, which it credits to Emperor William:

"Poles: You, of course, remem-

ber how once at night the bell of the Holy Swiatogorsky Monastery began to ring without human aid, and when all the pious people understood that this great and important event had been signalized by a miracle.

"That event was my decision to wage war with Russia and restore to Poland her saints and annex her most cultured land to Germany. I had a wondrous dream. To me appeared the Virgin Mary and commanded me to save her holy convent, which danger threatened.

"She gazed at me with tears, and I proceeded to fulfill her divine behest. Know you this, Poles, and meet my troops like brothers, saviours! Know ye, Poles, that all who are with me will be liberally rewarded; that those against me will perish! With me are God and the Holy Virgin. She lifted the sword of Germany to succor Poland."

THE PANAMA PACIFIC EXPOSITION LECTURE

On next Friday night, at Hartford College auditorium, will be presented the famous and beautiful illustrated lecture, "The Panama Canal and the Panama-Pacific Exposition." To those who wish to know how the great Exposition buildings and grounds appear, it will be a big treat. It will be the same as being there, because it will be an exact reproduction of the scenes.

The great Panama-Pacific Exposition is now ninety per cent. completed, only a few finishing touches being needed before it is thrown open to the world. It is the greatest sight of its kind in the world's history.

Over 200 fine views will be shown with the best apparatus money can buy. A splendid lecturer will speak from the platform and a competent operator will be in charge of the projection apparatus.

The greatness of this Exposition cannot be overestimated from whatever angle we may view it. Its setting is the scenic playground of America, under the Nation's fairest skies; in a city fully equipped to entertain its guests, and its occasion is not a dim historic event, but a living achievement, civilization's greatest triumph of peace.

Tickets are on sale at the Ohio County Drug Co. Season reserved seat tickets, including seven entertainments, may be obtained at a very cheap rate by calling on Prof. H. E. Brown, President of Hartford College.

ROOSEVELT'S DISCOVERY DOES NOT ALARM ARMY

Col. Roosevelt's ostensibly shocking statement that "I myself have seen the plans of the countries now engaged in the European war to invade the United States, capture our greater cities and hold them for ransom," failed to excite army officers in Washington.

Army officers, as a matter of fact, have known about these plans themselves for a long time, and credit all first-class powers abroad with having similar plans. The United States also has worked out plans of offensive and defensive action against every nation with which it might become involved.

It is all a part of the forehanded work which is assigned to the War College and the general staff, and if these groups of senior officers did not have a well defined idea of what they would do in an emergency they would be derelict in their preparation. The attitude of army officers is to minimize Col. Roosevelt's statement, regarding it with academic interest only.

HEAVY SHIPMENTS OF COTTON AT HICKMAN

Hickman, Ky., Nov. 2.—A banner shipment of cotton was made Saturday night when a big lot of about 420 bales of cotton was loaded on the steamer Clyde and sent to Memphis. This large consignment will be held in warehouses in Memphis until the market opens up. Besides this tremendous shipment, there was also a shipment made on the Lee line steamers last week and some shipments made by rail, the total number of bales for the week's output amounting to something in the neighborhood of 600 bales, representing in round numbers between \$20,000 and \$25,000. The gins are going full capacity, some of them running all night.

The largest portion of the cotton shipped last night on the steamer Clyde was the property of S. L. Doods, a planter of this city.

If you are contemplating putting a roof on your house, barn, stable or any other building, it will pay you to call and get my prices before buying elsewhere, for I can save you money. PAUL WOODWARD, 3911 Hartford, Ky.

Brussels in 1913 sent \$367,294 worth of artificial silk to the United States.

WILL NOT STOP FOREIGN LOANS

Administration Keeps Out
of Problem.

UNDERSTOOD TO OPPOSE PLAN

The Nations Now Engaged In
War Would Spend
Millions Here.

THE BANKS ARE INDEPENDENT

Washington, Nov. 2.—Viewing credit loans to belligerent countries as private transactions, the Washington Administration will not attempt to interpose its influence against such transactions on the part of American bankers.

This was learned on the highest authority after it became known that German financiers were contemplating the establishment of a credit loan in this country similar to the \$10,000,000 credit fund negotiated by the National City Bank of New York and other bankers for the French Government.

The decision of the Washington Administration may lead to the purchase in the United States of about \$50,000,000 worth of supplies by Russia and an equal if not a greater amount by Germany. Details of the expected transactions are lacking here.

High officials of the Washington Administration insist that President Wilson has not changed his view announced at the outbreak of the war that the loaning of money to belligerents would be "inconsistent with the true spirit of American neutrality."

A distinction was drawn by the officials, however, between the loans referred to at that time—such as bond issues offered for public sale—and credit transactions intended as a checking account against the purchase by belligerents of foodstuffs and supplies from American firms.

The President realizes that this Government has no legal right to oppose loans of any character, nor is there any obligation of international law forbidding them. During the Russo-Japanese War loans were floated for Japan in the United States through public bond issues. The President is understood, however, to be opposed to that form of loan as liable to stir up ill feeling and prejudice.

Officials have unanimously decided to refrain from discussing the subject of loans, as the position of the Government in the circumstances is an embarrassing one. When J. P. Morgan & Co. asked the opinion of the State Department several months ago as to whether the Administration would approve of a loan to France, the Washington Government expressed itself against it. Bankers, however, are not obliged to ask the advice of the Washington Administration and are just as much at liberty to engage in credit loans as American ammunition firms or horse dealers are permitted to send munitions of war and horses to belligerent armies. The American Government is under no obligation to prevent their shipment nor has it any power under the laws of the United States to prevent commerce in contraband. The burden rests in such cases on the belligerents affected, who can seize contraband, including cargoes of gold on the high seas if destined to belligerent ports.

Under what is known as credit loans, there is no intention, it is understood, to export gold from the United States. Large funds will be established by the belligerent countries with their financial agents here who will pay the bills of the European nations to American dealers in munitions of war and supplies. The bankers will be given short-time notes by the belligerent governments with a much better rate of interest. It is said, than ordinarily could be obtained. In return for these considerations European governments will agree to spend large sums of money in the United States for supplies.

Repair work, Wall Paper, Paint, Oil, Varnish, Tin Work, Pumps and Roofing, see Neighbors Bros., Beaver Dam, Ky. Prices reasonable and they guarantee their work. 4314

BANKS TO RAISE MONEY FOR COTTON LOAN FUND

The Courier-Journal of Sunday says:

Louisville banks will raise \$1,000,000 for the cotton loan fund instead of \$2,000,000, as the Federal Reserve Board asked. This decision was reached yesterday afternoon by a committee of bankers in confer-

ence with representatives of leading business houses. The conferees decided Louisville's first duty was to the tobacco and whiskey people, and that \$2,000,000 sent away would be too great a drain on the city's banking resources.

NEW HAVEN MEN ARE INDICTED IN NEW YORK

New York, Nov. 2.—Within a few hours after the handing down to-day of Federal grand jury indictments accusing twenty present or former directors and the former general counsel of the New York, New Haven & Hartford railroad of criminal violation of the Sherman anti-trust law, four of the defendants entered pleas of not guilty before United States Judge Foster, and were released under bond. It was reported tonight that several of those named in the indictment would claim immunity on the ground that they appeared as witnesses in the investigation of the New Haven's affairs by the Interstate Commerce Commission.

The indictments to-day were the outcome of a grand jury inquiry which had been in progress here for several weeks. Charles S. Mellen, former president of the New Haven and principal witness in this inquiry, was not indicted. His name appears, however, in a list of officers and former directors mentioned as "conspirators." The late J. P. Morgan is named in this bill as one of the "conspirators."

Bench warrants were issued for the arrest of those indicted at the request of the Federal District Attorney.

CARNEGIE MEDALS ARE AWARDED TO HEROES

Residents of Kentucky, Indiana
and Tennessee Among
the Number.

Pittsburg, Pa., Oct. 31.—Ohio has a fine record as a mother of heroes, as well as Presidents, according to the awards of medals made by the Carnegie Hero Fund Commission here to-day. In all sixty-nine acts of heroism are recognized; nineteen to the credit of Ohio men and boys. This is more than twice as many as appear for any other State, Michigan having nine, and the others scattered among nineteen States.

There are six heroines: Margaret Guy, aged 16, of South Boston, Mass., who saved a lad three years her senior from drowning; Mary Allen, of Big Rapids, Mich., who rescued two girls from drowning in Rose Lake, Leroy, Mich.; Sophia Thomas, of Newry, S. C., who rescued a girl from a rabid dog; Phebe Briggs, a assar College girl, who saved three college-mates from drowning; Mrs. Lillian M. Coburn, who saved two men from burning at Susanville, Cal., and Frances Spanke, a 14-year-old girl of Hartman, Ark., who lost her own life in saving another girl from being killed by a train.

With to-day's awards there is a list of close to a thousand "heroes of peace" who have been awarded Carnegie medals since the fund was established ten years ago.

In all, fifteen silver medals and fifty-four bronze medals are awarded. Thirteen of the heroes lost their lives, and to the dependents of ten of these pensions or sums of money, to be applied subject to the discretion of the commission, are granted. In fifty cases sums aggregating over \$60,000 are appropriated for education, purchase of homes or other worthy purposes that may be approved by the commission.

The following bronze medals were awarded to residents of Kentucky, Indiana and Tennessee:

The Rev. Henry G. Geiger, Hickman, Ky., and William B. Charlton, Dover, Tenn., saved a party of four from drowning in their home at Hickman when the Mississippi river levee broke April 1, 1912.

Ivis C. Hornocker, R. F. D. 2, Alfordville, Ind., saved three men from drowning at Portersville, March 27, 1913.

Burt W. Houseman, 230 East North street, Indianapolis, and Arthur E. English, of Delaware, O., saved Walter W. Raines from flood of Olentangy river at Delaware, O., March 25, 1913.

Notice to Claimants.

All persons having claims against the estate of W. P. Iler, deceased, are hereby notified to file same with me at my residence in Rockport, Ohio county, Kentucky, properly proven, on or before Tuesday, December 1, 1914, or they will be forever barred. Those knowing themselves indebted to this estate, by note or account, will please call and settle same. 4214

TO OBSERVE ARBOR DAY THROUGHOUT THE STATE

Friday, November 6, Has Been So
Designated By Governor's
Proclamation.

Friday, November 6, has been designated as Arbor Day for Kentucky and it would be well if the day were more generally observed than it has been in the past.

Especial effort has been made in recent years to have Arbor Day celebrated in the Kentucky schools, and the plan has met with some success. Many of the rural school grounds offer a most inviting field for tree planting. Hundreds of schools in the State are located on bleak and barren spots that might be improved in appearance wonderfully by the proper planting of trees. The tree-planting enterprise, too, would add something to the comfort of future students.

But the schools should not be allowed to enjoy a monopoly of Arbor Day. There are few places where trees cannot be planted to some advantage. In a country whose period of national life has been devoted to the destruction rather than to the conservation of forestry, there is no lack of opportunity for planting. As the gubernatorial proclamation puts it: "Schoolhouse yards, home yards, public roads, pastures and fields should be beautified with trees; our natural forests are diminishing and we must not only save what is left of the forests, but must reforest the cut-over, the burnt-over and the un-forested districts of the State."

Whether it be a fruit tree, an ornamental tree or a timber tree, the time devoted to planting it is time well and worthily spent. Within the

VICKS' Croup and SALVE
is applied externally to the throat and chest; the body heat releases soothing antiseptic vapors which are inhaled directly to the affected parts. Relief almost immediate. The worst cold cured overnight—croup in 15 minutes. At all drugists, 25c, 50c and \$1.00. Liberal sample mailed on request. Vicks Chemical Co., Greencastle, N.

last two decades the whole country has awakened to the importance of the forestry question. Kentuckians, no less than those of other States, should be interested in preserving the remnants of our godly forest heritage, aid in passing on to future generations a land beautified and glorified by its wealth of trees. It requires years for nature to build a perfect tree and it requires only a few moments for a man to destroy nature's work. The time has come when nature must be assisted in the beneficial task of restoration. [Courier-Journal.]

IMPORTANT NOTICE

The Farm Agency of the Continental Fire Insurance Co., of Hartford, Connecticut, formerly represented by A. C. Yeiser, has been transferred to me. I also have the Agency for the Recording business in the following companies: Continental, Hartford, Aetna, Phoenix and Fidelity underwriters, which includes the business written in all towns in Ohio County.

These are all old line Insurance Companies.

I will be glad to have you call on me or I will see you at your home for anything in the Insurance line.

HOLINESS CONVENTION TO BE REPEATED IN 1915

Cincinnati, Oct. 31.—Dr. P. J. Fowler, of Boston, was elected president of the International Holiness Convention here to-night. The other officers selected were: C. W. Ruth, Indianapolis, secretary, and W. H. Foster, Omaha, treasurer. It was decided also that a convention such as has been held here has been a help to the Holiness movement and a committee of forty was appointed to make arrangements for a similar one next year. The delegates remaining in the city to-morrow will participate in a "love feast" at the church in which the convention has been held.

Palestine this year exports nearly 600,000 pounds of almonds.

PILE OF STYLE

Our Clothing

We are now prepared to show you the best selected line of Fall Suits and Overcoats to be found anywhere. Nothing, however, will be found in our stock but the newest fabrics and latest styles. Don't forget this and remember that IT PAYS TO TRADE WITH A HOUSE THAT SAVES YOU MONEY.

FAIR & CO.
THE FAIR DEALERS

the penitentiary for a period of one to five years, arrived in Hartford last Monday afternoon, having been paroled after serving one year and four days.

Mr. Ernest Woodward left yesterday morning for Louisville, Indianapolis and Frankfort, on legal business. He will return home Saturday.

Hon. G. B. Likens, Assistant Auditor of State, came down Monday evening, returning home yesterday afternoon. Mr. Likens came down to vote.

Mr. S. E. Bennett, of No creek neighborhood, has moved with his family to Hartford and is occupying the Wedding property, on lower Union street.

Hon. Alvis S. Bennett, Louisville, visited in Hartford and vicinity a day or two the first of the week. He came down to vote, returning home yesterday afternoon.

Mr. D. B. Hancock, who had been visiting the family of R. H. Gillespie for several days, has returned to Lebanon, Ky., with his wife to resume work in the oil fields.

Mr. and Mrs. Louis Riley, city, are the proud parents of their first-born, which the stork left with them yesterday. She weighs ten pounds and they have named her Lois.

Mr. J. W. Robertson has sold his farm on the Beaver Dam pike to Mr. Berry Rial and Mr. Robertson has purchased the Andy Alford residence on Clay street, in East Hartford.

Mr. R. A. Nofsinger, who formerly conducted a drug store in Hartford but has recently been living at Sacramento, has gone to Owensboro, where he is engaged in the same business.

Mr. Alonzo Smith and Miss Ethel Wade, both of Fordsville, were married at the Rhoads House in Hartford last Thursday. Rev. H. M. Gwinn, pastor of the Christian Church, officiating.

O. T. O'Bannon, the Main street groceryman, has on sale the best of Groceries, Flour, Meat and Feed-stuff and also buys country produce. Strict attention to orders and prices always satisfactory. 43t4

There was a first-class motion picture show at Dr. Bean's Opera House Saturday night. It was a well staged play embracing three long reels and was equal to any afforded in the large cities.

Miss Bessie Gillespie, oldest daughter of Mr. and Mrs. R. H. Gillespie, left for Louisville last Monday morning where she went to accept a position in the Jewish Hospital, preparatory to becoming a trained nurse.

Mr. and Mrs. R. E. Lee Simmerman, accompanied by Mrs. Judge J. S. Glenn, daughter Miss Lelia and son James Glenn, spent last Saturday in Owensboro shopping. They went down in Mr. Simmerman's large touring car.

At a meeting of the Board of Directors of Hartford Division, Ohio County Farmers' Mutual Telephone Company, recently, Mr. Marvin Baird, of near Hedfin, was elected manager for a period of two years. He took charge Monday.

The Hartford Republican was mistaken when it said, "Mr. Debs was the first man who had ever been a candidate for the Presidency to visit Hartford." James B. Weaver, who was a candidate for this high office, made two visits to Hartford.

Mr. W. E. Ellis, the local produce merchant, has installed a new 12-horse-power kerosene engine together with a complete grinding and crushing outfit. This machinery is all new and of the latest patterns, which adds very much to Mr. Ellis' plant.

The Sheriff of Breckenridge county passed through Hartford last Wednesday on the west-bound L. & N. passenger train, with six prisoners who had been convicted and sentenced to terms in the Eddyville penitentiary from the Breckenridge Circuit Court.

Mr. Fred Lauterwasser, the shoemaker, has presented the Herald with a fine specimen of vegetable gourd grown in his garden at the edge of town. It grew in the shape of a loop and weighs 10½ pounds. In the early stages of its growth it makes good eating.

News was received in Hartford the latter part of last week that the little five-year-old son of Mr. and Mrs. George Lewis, who live in San Antonio, Texas, had been killed by an automobile. The accident happened Thursday, though particulars were lacking. The little fellow was an only child. The parents have the deep sympathy of many friends here, where they formerly resided.

Millinery!
At my home at Sulphur Springs. Will be in Hartford to take orders on Mondays. SARA C. SMITH.

OHIO CIRCUIT COURT.

Com'th. vs. Will Duke, charged with selling liquor—plea of guilty entered, law and facts were submitted to the court and fined \$60 and costs.

No. 5171 Com'th. vs. R. P. Her—continued on motion and affidavit of defendant.

Com'th. vs. John Render—defendant executed bond for his appearance at next February term of court.

Com'th. vs. Wash Duncan, who had been fined in Beaver Dam Police Court for violating local option law—appeal dismissed.

Com'th. vs. George Kissinger—defendant was recognized in the sum of \$100 for his appearance at the first day of the next February term.

The grand jury before adjournment returned into court 9 indictments classified as follows: Breach of the peace 1, maintaining a public nuisance 1, violating local option law 3, detaining a woman against her will 1, fornication 1, destroying personal property 1, petit larceny 1.

Wm. H. Jones vs. L. H. & St. L. Ry. Co.—verdict of jury \$1,000 for plaintiff.

Frank Decker vs. I. C. R. R. Co.—continued.

T. O. James vs. I. C. R. R. Co.—judgment for defendant's cost.

Com'th. vs. L. & N. R. R. Co. (2 cases)—judgment dismissing plaintiff's petition.

John R. Phipps vs. L. & N. R. R. Co.—continued.

C. P. Morris vs. H. R. Kirtley & Co.—continued.

Columbus Evans vs. I. C. R. R. Co.—judgment of \$125 for plaintiff by agreement.

Warren Evans vs. I. C. R. R. Co.—verdict of jury \$1,600 for plaintiff.

M. C. Warner vs. I. C. R. R. Co.—agreed judgment for plaintiff \$60.

Shelby Robinson vs. McHenry Coal Co.—continued at defendant's cost.

F. M. Allen vs. John Igleheart, &c.—continued at defendant's cost.

C. T. S. Overton vs. John Igleheart, &c.—continued at defendant's cost.

J. Watt Stevens vs. Sarah C. Smith—jury failed to agree.

Lizzie Duke Mercer vs. Hilbert Bennett, &c.—continued at defendant's cost.

W. H. Williams vs. Hilbert Bennett, &c.—continued at defendant's cost.

Mary Coleman, who sues, &c., vs. A. P. Kelly, &c.—continued for defendant.

Court adjourned Saturday until the February term.

Sam Jones and Jim Jones, convicted of housebreaking, and George Jones, convicted of grand larceny during the recent Circuit Court, were taken to Eddyville yesterday by Sheriff S. O. Keown.

Mr. W. D. Hamilton, of Greenville, and Harry Goodman, of Morgantown, were examined at the Hartford bar last week, and each was granted license to practice law in this Commonwealth. The board of examiners, as designated by the Court, follows: Ernest Woodward, Ben D. Ringo, H. P. Taylor, J. S. Glenn, A. D. Kirk, M. L. Heavrin, W. H. Barnes, McDowell Fogle, C. E. Smith and Otto Martin.

Notice.

I now have my new feed and meal mill installed and will grind on Wednesdays and Saturdays until sufficient freezes take the sap out of the corn, when I will grind every day. Can make either bolted or unbolted meal. Can also make any kind of feed out of corn, or can grind your wheat into feedstuff. W. E. ELLIS, Hartford, Ky.

COLORED MAN KILLED BY PASSENGER TRAIN

Will Willis, a colored man in the employ of the Bond Tie Co., was run over and almost instantly killed near the depot here last Monday by the 1:16 west-bound passenger train. Only the engine and tender ran over the man, however, as the emergency brakes were applied.

Willis and another colored man who worked with him were hurriedly walking ahead of the train towards the depot, aiming to get aboard. They were on a switch track and Willis was nearest the train. The engineer sounded an alarm whistle and Willis, apparently becoming confused as to which was the main track, ran right in front of the engine, which was not going at much speed, as the stop was near. Willis' friend, seeing his danger, yelled at him and threw his hat at him to attract his attention. The engineer continued sounding an alarm as Willis was struck.

Willis turned slightly sideways as the engine struck him and he was scooped up on the cowcatcher for a moment. Before the engine could be stopped, however, he rolled down on the track and the wheels of the

Hub Clothing Co.
HARTFORD, KENTUCKY.

engine and tender passed over him. His skull was crushed in and his body cut in two at the small of his back. His body was badly mutilated.

Dr. A. B. Riley, the county coroner, was on hand in a few minutes. He empaneled a jury which rendered a verdict in accordance with the facts in the case. Willis had been in the employ of the Bond Tie Co. for a number of years and was considered a good, trustworthy workman. His home was in Elizabethtown, where his family reside and where his remains were shipped. It is thought he was somewhat under the influence of liquor at the time of the accident, as a pint bottle about half full of whiskey fell from his clothes at the time of the accident.

FARMERS' INSTITUTE AT BEAVER DAM FRIDAY

The Ohio County Farmers' Institute will convene in Beaver Dam next Friday for a two-days session. A very fine lecture force composed of Messrs. J. E. Hite, Prof. J. H. Carnody, M. O. Hughes, W. B. Anderson and Miss Nancy Blair Barr, will be on hand and present a program that will be well worth while for every farmer in the county to hear. These lectures are each given by an expert and every farmer in this county who wants to make better progress in his chosen work, should attend.

These lecturers are sent out by Mr. J. W. Newman, Commissioner of Agriculture, solely for the benefit of the farmers and it is to be hoped that every farmer in Ohio county, who can possibly do so, will be present and hear them.

LICENSED TO MARRY.

HARTFORD, KY.

TWO GAME WARDENS TO ACT FOR EVERY COUNTY

Extra Precautions To Enforce Observance Of Laws During Open Season.

Frankfort, Ky., Nov. 2.—Every county in Kentucky will be patrolled by two game wardens, acting directly under instructions from the Game and Fish Commission, from November 8 until January 1, when the game season will close. The season will open November 15.

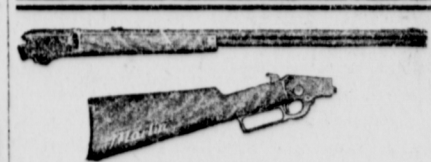

Executive Agent J. Q. Ward, who has just appointed thirty district wardens, with directions to select a warden in every county where there is none now, will call into co-operation to prevent hunting out of season or without a license and market hunting, every available agency. He is sending notices for publication in every county paper, advising hunters of the action of the department; he is calling hunters and hunting clubs to assist, and the wardens have directions to call on the County Judges, Sheriffs and County Attorneys to assist them.

These wardens will go horseback or in buggies and their visitations will be without warning. Instructions as to the character of their duties and the way they are to perform them are explicit.

Market hunters and those who hunt out of season or without a license are the particular objects of this surveillance. Sunday violators and trespassers must be handled by the local authorities, and wardens are instructed to inform landowners who ask them to arrest such violators, that they should go to their county authorities.

Mr. Ward said the successful work of the department last year in the fight against market hunting, followed by a dry, good breeding season, has made game birds plentiful this fall, and if the hunters co-operate with the department, the sport will be unusually good.

TOO MUCH "RED TAPE" IN "BUY A HOGSHEAD"

Is Required By Government—
Buyer Must Qualify As
a Dealer.

Hopkinsville, Ky., Oct. 31.—James Breathitt, Jr., deputy internal revenue collector for this district, calls attention to the Federal laws governing the dealing in tobacco as it would apply should a "Buy a Hogshead" movement be seriously undertaken in the tobacco districts. Mr. Breathitt states that the law requires every person before he is allowed to buy tobacco at all, to qualify as a dealer, for tobacco can only be sold to recognized dealers in tobacco or to manufacturers. Even if it could be bought the law prohibits the selling or even giving away, of all tobacco except by qualified dealers.

To qualify it is necessary to file a statement with the revenue department and to pay a tax ranging from \$6 to \$24 under the war revenue measures recently enacted. It is also necessary to keep a set of books as provided by the Government and make regular reports to the revenue department.

Mr. Breathitt says he required the First National Bank to qualify as dealers after they had bought their hogshead of tobacco, in order to avoid possible complications.

R. E. Cooper, speaking for the tobacco men, while giving full credit to the local bank for its generosity and sincere desire to help the farmers, says that the "Buy a Hogshead" movement is not necessary. Mr. Cooper says the tobacco men expect to see the old weed sold soon and the new crop moving steadily at good prices, not later than the last of December, and possibly much earlier. The principal need at present, he believes, is to stimulate optimism and faith in the market.

HAS JOE MULHATTON COME BACK TO LIFE?

Marion, Ky., Oct. 31.—Some years ago A. G. Cline, who resides about six miles northwest of Marion, had a well bored on his premises, and when at the depth of about seventy-five feet the bit was broken off and could not be recovered. The well was therefore abandoned, as it was on a high hill, and no water had been struck. Recently it has been noticed that there is a strong draft in the well. From 6 o'clock in the evening until about 12 the next day a strong current of air passes out of the well at the top of the ground through an old casing or pipe. From 12 in the day until about 6 in the afternoon the current of air passes back into the well, and is so strong that it will draw a hat from the top of the ground into the well. The current of air changes at the time stated each day. Many people are going out to see this very unusual dry well.

The Horrors of War.

A soldier of the legion lay dying at Przemyśl, he remarked that Sherman told the truth when he said that war was lousy. "It was in a glorious cause," he said, "in which I fought and bled, but what we have been fighting for, God knows I can not tell."

The Germans and the French have been a-fighting on the Aisne, they fight a week without a rest and then they fight again. They stop not for the thunder or the lightning or the rains, but what the fight is all about, will some one please explain?—[Hillsboro News.]

Remarkable Cure of Croup.

"Last winter when my little boy had croup I got him a bottle of Chamberlain's Cough Remedy. I honestly believe it saved his life," writes Mrs. J. B. Cook, Indiana, Pa. "It cut the phlegm and relieved his coughing spells. I am most grateful for what this remedy has done for him." For sale by all dealers. (Advertisement)

SPLENDID INSTITUTIONS —LET'S HAVE ONE HERE

Seymour, Ind., Oct. 31.—The farmers' club, newly constructed, was dedicated this week with elaborate ceremonies. This is the first building of its kind in the middlewest, entirely for the convenience and comfort of the farmers who come here to do their trading, and they

have taken great interest in the building. There is an assembly room for farmers' meetings, rest rooms for both men and women and a room set apart for children, in charge of a woman who will take care of the little ones while their mothers do their shopping. There are lunch rooms and other conveniences, and from the hearty endorsement so far received from the visiting farmers, the club is sure to score a great success.

GET IN ON THIS?

I do not pine for human gore, yet boldly I assert I'd like to slap the brainless yap who calls a girl a "skirt."—[Peoria Journal.]

I pine not to bring others woe—I trust I'm not so mean; but I would like to swat the bo who calls a girl a "queen."—[Houston Post.]

I pine to see no injured gink clutch at himself and wail; but I'd like to boot the crude galoot who calls a girl a "frail."—[New York Evening Sun.]

I am not prone to violence, but I should like to maul and kick and muss the insane cuss who calls a girl "some doll!"—[Judge.]

I do not wish to seem a crank, but always get a pain, and want to club the awful dub who calls a girl a "jane."—[LaFollette's.]

I do not care to kill the guy nor wish to hear him screech, but I could poke the senseless bloke who calls a girl a "peach."—[Marquette (Wis.) Epitome.]

I hanker not to murder, but I may commit it when I land a kick upon the hick who calls a girl a "wren."

STONE PILE AFFORDS JOB FOR NOTED TENOR

New York, Oct. 30.—After having cracked stone and made shoes for eight weeks as a German prisoner in a French detention camp near Paris, Albert R. Reiss, tenor of the Metropolitan Opera Company, arrived here to-day from Havre, a passenger on the liner Chicago. Mr. Reiss still wore a pair of hobnailed shoes which he had made himself.

Mr. Reiss, although a German, had lived in Paris for 30 years. When the French Government moved to Bordeaux, he said, he was arrested and sent to a camp six miles from Paris, where he lived in a slaughter house for eight weeks on a diet of codfish and mussels. He was made to crack stones for concrete, he said, until his hands became sore; then he was set to making shoes. He was released through the efforts of the American State Department. Mr. Reiss said he had no ill feeling against the French, but regarded his detention as a precaution necessitated by conditions.

Great Weekly at a Low Price.

The Cincinnati Weekly Enquirer, a twelve-page paper recently transformed into the size and appearance of a daily, will be furnished in connection with the Hartford Herald at only \$1.35 for the two papers. This price stands good on renewals for The Herald. The Weekly Enquirer is an ideal newspaper, containing a big variety of reading and is especially suited to the farming classes. It is Democratic and progressive. This is certainly a low price for a lot of good reading.

Used One Pencil 32 Years.

Bought for a penny, carried in his pocket for 32 years and sharpened but six times in all those years, is the career of a lead pencil owned by J. T. Adamson, a farmer-merchant of this city. The pencil was purchased when its owner was a young man.

It is now about two inches long, and is worn very smooth and black. —[Nickelville (Mo.) Cor. St. Louis Globe-Democrat.]

FARM FOR SALE.

A farm embracing 80 acres, good dwelling, barn, other out-buildings, all fenced, in good repair and fine state of cultivation. This farm is located one and a-half miles from Centertown, close to church and school buildings. Terms—One-half down and remainder in one, two and three years. For further particulars call on or address,

F. L. FELIX,
Hartford, Ky.

SOME GREAT MARVELS AT KRUPP'S GUN WORKS

The Big Steam Hammer "Fritz"
Cracks Nut Without
Breaking Kernel.

An account of a recent visit to Krupp's works at Essen appears in the World's Work for October. Among other marvels described is the famous steam hammer "Fritz," the giant of the 160 steam hammers at work in the establishment. "Fritz" was constructed in 1860 by Alfred Krupp at a cost of £100,000. At that time Krupp's competitors regarded his intention to set up the giant hammer, which possesses a falling weight of fifty tons, as a sign of incipient madness. Undeterred, Krupp continued, and to-day, after "Fritz" has been at work for fifty years, it is as useful as ever. Breaking nuts without injuring their kernels is a popular method of demonstrating the marvelous delicacy of its adjustment.

In the armor-plate department we see huge hydraulic presses, of which there are no fewer than eighty-one in the works, and under which steel blocks are pressed and squeezed until compelled to assume the desired shape, no matter how large they may be. A huge crucible steel block, weighing eighty tons, is placed under a 5,000-ton hydraulic press; after being coaxed, handled and formed for half an hour, it emerges in the shape of the gigantic shaft of an ocean steamship, 170 feet long. By the aid of a special mechanical apparatus, the shaft is bored, the kernel being extracted in one piece.

Other equally famous machines are the hydraulic shears, which cut through three inches of solid armor plate as if it were cheese. Enormous bending presses of 10,000-ton pressure bend armor plates to any shape desired with infinite ease. The firm has its own waterworks, makes its own gas, and generates its own electricity. The gasworks supply more gas for the factory town than is used annually in Munich, namely, 25,000,000 cubic meters. And yet the 40,000 gas jets distributed all over the establishment do not suffice for illuminating purposes, and electricity in the shape of 3,000 arc lamps and 30,000 incandescent lights has to be pressed into service. Over 400 steam boilers generate the steam for the 8,000 different machines and the 2,500 electric motors at work. More than 500 miles of cable and wire and over 800 telephone stations and twenty telegraph stations are required to facilitate communication throughout the works.

It Really Does Relieve Rheumatism.

Everybody who is afflicted with rheumatism in any form should by all means keep a bottle of Sloan's Liniment on hand. The minute you feel pain or soreness in a joint or muscle, bathe it with Sloan's Liniment. Do not rub it. Sloan's penetrates almost immediately right to the seat of pain, relieving the hot, tender, swollen feeling and making the part easy and comfortable. Get a bottle of Sloan's Liniment for 25 cents of any druggist and have it in the house—against colds, sore and swollen joints, rheumatism, neuralgia, sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief. (Advertisement)

THE END OF A FASHION WAS AT END OF A ROPE

The most sudden and summary ending of a fashion occurred November 15, 1615, with the hanging of Mrs. Turner, one of a number of persons executed at Tyburn for the conspiracy that brought about the death of Sir Thomas Overbury. This woman had made herself famous in the fashionable world of her time as the inventor of a yellow starch, for which there was an immense demand. Lord Chief Justice Coke—

AN OLD ADAGE SAYS

"A light purse is a heavy curse"
Sickness makes a light purse.
The LIVER is the seat of nine tenths of all disease.

Tutt's Pills

go to the root of the whole matter, thoroughly, quickly safely and restore the action of the LIVER to normal condition.

Give tone to the system and solid flesh to the body.
Take No Substitute.

we have all heard of "Coke on Lytleton"—in sentencing the woman, upbraided her in most contemptuous terms, telling her that she had been guilty of seven deadly sins and that, as she was the inventor of the yellow-starched ruffs and cuffs, so he hoped that she would be the last by whom they would be worn. He gave strict orders that she should be hanged in linen starched in the color that she had rendered so fashionable. This addition to the sentence was carried out. On the day of her execution Mrs. Turner came to the scaffold with her face rouged and a ruff stiffened with yellow starch around her neck. The object contemplated by Coke was attained. The yellow ruff was worn no more from that day.—[Indianapolis News.]

THE WINDOW DISPLAYS OF A POPULAR MEDICINE

James H. Williams, of this city, in connection with nearly seven thousand large retail druggists all over the United States, is joining in making a big display of Vinol during this week of November first, which indicates the fraternal conditions which exist among the retail druggists who are Vinol agents all over the United States; in fact they are organized into what is called the Vinol Club throughout the country, from coast to coast. Twice a year they make simultaneous window displays of this valuable preparation, for which they have enjoyed the exclusive sale for many years.

The attractive window displays that these enterprising druggists make are a feature of their store, and they are to be congratulated upon their connection with Vinol and enterprise in this respect.

Western Crops Good.

Edgewater, Colo., Oct. 25, 1914. Mr. F. L. Felix, Dear Sir:—You will please find enclosed \$1.00 for renewal to "letter from home." The crops in Colorado were very good this year, wheat averaging 24 bushels per acre for the State, but the irrigated district is what brings up the average, as there was a great deal of the fall wheat went as much as 50 bushels per acre and some 55 bushels and better. The alfalfa crop was the best in years.

Yours very resp't.,
J. B. HILL.

The English cutlery factories are desperately endeavoring to execute on time a war office order for 500,000 razors.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: F. J. CHENEY & CO., Toledo, O.
Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

Saved Girl's Life

"I want to tell you what wonderful benefit I have received from the use of Thedford's Black-Draught," writes Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Thedford's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEDFORD'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Thedford's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents. [1-43]

The Previous Question.
Old Senator Nesmith of Oregon, one of the first settlers of the state, used to tell this story: At the time when Oregon was admitted as a state and the first legislature of the state met

"SIT DOWN, YOU FOOL!"

Nesmith, who was a member, possessed himself of a copy of a book on parliamentary procedure. This work, which was at the time probably the only one of its sort west of the Mississippi, he studied diligently and by the time of the first session was well up in the rules of debate.

At the first meeting of the new legislature a motion was introduced and speedily carried, but on the second measure a dispute arose, and for three days the state legislators wrangled and debated.

Finally on the third day Nesmith, who had watched the proceedings without even opening his mouth, decided it was time to use a piece of his parliamentary procedure, so he rose and moved the "previous question."

There was a moment of silence following this motion, and then amid a shout of derision the speaker cried:

"Sit down, you fool! We passed the previous question three days ago!"

Rest in Flight.

The flying arrow, knowing its path is made.

Go singing softly at the bow's behest, Taking its destined journey unafraid, In every moment of its flight at rest.

So speed, O soul, to your divine abode; Go singing through the shadow and the light—

Go bravely on your high appointed road, At rest in every moment of your flight.

—Edwin Markham in Nautilus.

Guiding the Doctor.

The blacksmith, who was long on the wisdom of his trade, but short on medical lore, sprained his wrist one afternoon and lost no time in hustling to the office of a physician.

The doctor examined the wrist and then took a small bottle from a shelf, but found it empty.

"James," said he, turning to an assistant, "go upstairs and bring me down a couple of those vials."

"What's that?" exclaimed the patient, suddenly showing large signs of emotion.

"I was merely asking my assistant to bring me down a couple of vials from upstairs," answered the doctor.

"Files!" cried the blacksmith with a look of determination. "No, you don't, doc! If that hand has got to come off you will use a knife or a saw!"

IMPORTED DRAFT HORSES

NO LONGER NECESSARY

Washington, D. C., Oct. 31.—With the exception of a very limited number from England, importation into the United States of pure bred draft horses for breeding purposes has been practically stopped by the outbreak of the European war. For several years previous, from 2,500 to 4,000 stallions and mares have been brought annually into this

country. In the opinion of experts in the United States Department of Agriculture, however, the standard of draft horses in America will not suffer from the interruption of these importations. There is, it is said, a sufficiently large amount of pure blood already in the country to answer all requirements and the American draft horse will now have an opportunity to demonstrate its own qualities.

LAST GREAT EUROPEAN WAR.

Napoleon's Memoirs Offered Free Together With Collier's Weekly and Hartford Herald.

History repeats itself—but with variations. A hundred years ago France alone, under the leadership of Napoleon, faced Germany, Austria, Italy, Russia and Great Britain—and won.

At thirty-six, Napoleon had conquered every nation of Europe and in the battle of Austerlitz in 1805, practically brought the continent under the subjection of the French army. Then Austria, Germany and Russia formed the great coalition against France, only to be beaten in battle until they were forced to sue for peace. England, thanks to her impregnable navy, was the only nation not forced to acknowledge Napoleon's rule.

It was the snow-covered steppes of Russia rather than the military success of Europe that finally turned the tide against him.

The present European crisis gives a particular opportuneness to the offer of Napoleon's Memoirs, an announcement of which is made in another column of The Herald to-day.

Few books throw a more illuminating and interesting light on the underlying causes of those years of conflict than the fascinating story of the man whose meteoric career left Europe sown with the seeds of ris-

content.

"Eventually," said Napoleon, "Russia will rule the World." The present conflict will go far towards determining the truth of that prophecy, and day by day it will furnish an absorbing illustration of the advance which has been made in the art of warfare since the days, only a century ago, when France alone had Europe at her feet.

Napoleon's Memoirs, written by his private secretary, Baron De Meneval, will give you a clearer insight into that tremendous upheaval of Europe which the present crisis seems destined to reproduce.

You can get Collier's Weekly and the Hartford Herald both one year, together with the three volumes of Memoirs of Napoleon (post-paid) all for only \$3. It is a rare bargain in the literature line.

An Unfortunate Drawback.

A detective was trying to get a few facts from the man who had employed him to hunt for a runaway boy. "Has he any distinguishing marks about him?" he asked.

"Yes," said the father, frowning impatiently. "The distinguishing mark about him, sir, is that he looks like me."

"I'm," mused the detective; "I should scarcely call that a distinction. That's a handicap!"

Caruso's Dinner Engagement.

When the late J. Pierpont Morgan offered Enrico Caruso \$1,200 some years ago to sing at an evening party in his house the singer coolly answered that he could not possibly oblige, as he had invited his lifelong friend, Leoncavallo, to dinner the same night.—Boston Herald.

Nine Points of Law.

1. A good deal of money; 2. a good deal of patience; 3. a good cause; 4. a good lawyer; 5. a good counsel; 6. good witnesses; 7. a good jury; 8. a good judge; 9. good luck.

Moving Pictures.

"Are you fond of moving pictures?"

"I should say not. I never can hang them again to suit my wife."—Detroit Free Press.

Pain and despair and heartache cast you down for awhile, but afterward they help you to understand.

Tests by Irish scientists have shown that the wind will carry disease bacteria 200 feet and as high as sixty feet into the air.

As a general thing, when a girl's face is her fortune she didn't inherit it from her father.

A TRIP TO THE MOON.

One Scientist at Least Thinks It Will Be Made Some Day.

Jules Verne was a scientific man, and many regard his fiction stories of submarine and aerial flight—which at the time they were published seemed wild dreams—as a serious prediction of what he believed would be accomplished. As a matter of fact he did live to see the submarine an accepted arm of two navies, and the Wrights were well advanced toward success before he died. There remains his "Trip to the Moon," which seems absolutely impossible of accomplishment. Nevertheless, there are scientific men who dare to reach out into space and chart a pathway to other worlds.

One of these, M. Ernest Archdeacon, who ranks among the foremost authorities in France on aviation, predicts our present aviation machines, which at best could not encircle the earth in less than eight days, will be abandoned for air craft which will girdle the globe in sixty-six minutes. "All the peoples of the earth will then form a sole and single nation."

Man, insatiable in his ambition, is contemplating interplanetary flight, and M. Esnault Pelterie believes the vehicle will be a self propelled rocket (Verne again) with a speed of seven miles a second, which is estimated to be sufficient velocity to carry the projectile beyond the zone of terrestrial attraction. At this rate the moon would be reached in less than ten hours—assuming of course the vehicle was not melted long before by the heat generated in its terrific flight. Radium is suggested as a possible motive power.

The idea of interplanetary flight from our present viewpoint seems of course impossible. However, the submarine was 400 years in developing. M. Archdeacon says, "I am convinced that in a certain number of centuries the inhabitants of all the planets will have made acquaintance with one another, and I foresee the day when a world's interplanetary congress will be held."—H. H. Windsor in Popular Mechanics Magazine.

STATIC ELECTRICITY.

It is All Around Us Always and Plays Queer Pranks at Times.

Static electricity seems to be everywhere. We are quite surrounded by it on all sides. It is in the earth, the air, in our clothes, on the books, the rug and the walls. It sticks the papers together on the desk. It attracts feathers and bits of lint to metal and glass. It leaps from our fingers when we touch metal objects. Now and then a crackling noise will be heard when the coat is being taken off. A woolen skirt or sweater drawn quickly over the head will produce crackling sparks. By shuffling the dry feet over the carpet a considerable spark can be obtained from the fingers.

Bear in mind that static electricity is not the kind that is used to light the electric lamps in the house. Very little work has ever been found for static electricity. It is a worthless vagabond delighting in mad pranks. In the form of lightning it dashes down from the sky, scaring honest folk nearly to death, often doing considerable damage. It frequently visits the press room in large printing establishments and sticks the sheets of paper together until the presses have to be stopped. It gathers on the yarns and threads in textile mills, knotting and tangling them, and is always in mischief.

It is easy enough to prove the presence of static electricity. Rub a bit of amber, glass, hard rubber or sealing wax with a silk handkerchief or a piece of woolen cloth, and it will attract bits of paper and small particles of metal. When we stroke the cat's back this static electricity collects very rapidly. It snaps and crackles and flashes as it discharges between our fingers and the animal's fur. This display of static electricity is nothing more or less than a miniature thunder shower—without the rain.—From Harper's "Beginning Electricity," by Don Cameron Shaffer.

Quality of Humor.

A famous definition of the quality of humor is this: "For this humor is an adjunct divine; it is a value of life; it makes for greater things than clean laughter from the lungs. It is the root of tolerance, the proof of patience; it suffers long and is kind; serves to tune each little life harmony with the world harmony about it; keeps the heart of man sweet, his soul modest. And at the end, when the light thickens and the mesh grows tight, humor can shape the suffering vigils of the sleepless, can soften pain, can brighten the ashy road to death."

Hard to Say.

"If your mother bought four baskets of grapes, the dealer's price being a quarter a basket, how much money would the purchase cost her?" asked the new teacher.

"You never can tell," answered Tommy, who was at the head of the class. "Ma's great at bargaining!"—Ladies' Home Journal.

What He Imagines.

"Is he conceited?"

"I wouldn't put it that way. But I do know that every time he writes a check he imagines that the grocer is going to have it framed and hung up just to show his signature."—Detroit Free Press.

Puzzled.

Bix—Can you lend me \$5 for a month, old boy? Dix—What the deuce does a month old boy want with \$5?—Boston Transcript.

There is nothing more frightful than ignorance in action.—Goethe.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of
Chas. H. Fletcher
and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher
The Kind You Have Always Bought

HORSE MEAT WAS TRADED FOR BEEF

Is the Allegation in Secret Testimony.

MEAT SCANDAL FURTHER AIRED

Dealer Koch Traded Old Steeds For Young Bees After Butchering.

A SMOOTH PIECE OF BUSINESS

The Louisville Times of Friday says:

How Albert C. Koch and his associates swapped the meat from worn-out, aged and diseased horses for the best cuts of beef and other Government inspected meat products, is told in the defensive evidence of several of the dealers interviewed by the Health Department officials Tuesday afternoon after they had been named in an affidavit by Koch as traffickers in horseflesh. Although the meeting was secretly conducted behind closed doors in accordance with the law, the easy manner in which some of Louisville's supposedly most astute meat dealers were duped, has leaked out in stories told by those inside the doors during the hearing.

It is the opinion of health officials that a general knowledge of the easy manner in which prominent meat handlers were handed "horse gold bricks" would be quite as painful to the dealers as the damaging fact that some of the contraband flesh passed through their stores and packing houses. The admission of the alleged shrewdness of Koch only came when his affidavit pushed more than a dozen dealers up against a wall where defense at any cost became imperative.

Here is what happened in a number of instances, if the defense plea of a number of dealers, verified by receipted bills and ledgers, can be taken:

Koch and one or two associates purchased good, clean, wholesome meat from a number of the butchers named by Koch in his affidavit. All the business was done on credit. When bills became due, the dealers were told:

"We are a little short of money but we have a great quantity of trimmings suitable for hamburger and sausage that we have no market for and which we wish you would take off our hands and give us credit for."

This the dealers did, paying, as their books show, a higher price for horse trimmings by charging off bills for dressed beef, than the market price for beef trimmings from United States inspected packing houses.

Koch alleged that the dealers did this knowingly. The dealers answered this charge at the hearing by asking whether it stands to reason that they would take chances of destroying their business by purchasing horse meat when good beef was at a price in excess of hamburger material that had passed Government inspection. The grand jury will pass upon the veracity of these variant tales.

BEAVER DAM.

Nov. 2.—Your correspondent has been absent for a week visiting his daughter and grandchildren at Princeton, Ky.

During our absence Mr. C. P. Austin and Miss Kittie Rhoads visited Louisville, where the nuptial knot was tied. Mr. Austin is the assistant cashier of the Beaver Dam Deposit Bank and Miss Kittie is the clerk in the same bank. Both are popular young people of our town.

The Baptist church ordained Mr.

Roy Mason for the ministry last week. After graduating in the Beaver Dam High School he went two terms to the Georgetown Baptist College. He was well equipped for the ministry. He left last Friday for Tulsa, Okla., where he will make his future home.

The stork visited the home of Mr. Less Leach and left a little Republican that weighed 11 pounds and his name is Samuel Boyce.

We are glad to note that the wife of Mr. Otis Stevens, living two miles out the Morgantown road, who has had a long struggle with typhoid fever, is improving and without a relapse will soon be out again.

The Farmers' Institute of Ohio county will be held at Beaver Dam, November 6 and 7. The State Board of Agriculture will send their best speakers to teach the farmers soil-building, fruit growing and grain growing. Those interested in agriculture would do well to be present on that occasion. A special instructor in home economics and domestic science will address the ladies in a separate meeting. Remember the date.

The Methodist Ladies Aid entertained the people of town with a hallow'een supper Saturday evening, which was greatly enjoyed. They took in a goodly amount of money which will be used for charitable purposes.

Mrs. P. A. Rhoads has gone to Sheffield, Ala., to spend the winter with Mr. E. G. Rhoads, her son.

Mr. Dav Taylor, of Princeton, Ky., was in town Monday on business.

SMALLHOUS.

Nov. 2.—Rev. H. P. Brown filled his regular appointments at Smallhouse Baptist church Saturday night and Sunday morning.

Mesdames Will Nichols and Frank Downs and Miss Ruby Nichols, of South Carrollton, Ky., were guests of relatives and friends near here Saturday and Sunday.

Mr. James H. Fulkerson died at his home near here, aged 67 1/2 years, October 20th, and was buried at Equality cemetery the day following.

Mr. ——— Davison, of Yeaman, Ky., is the guest of his daughter, Miss Mae Davison, who is teaching near here.

A protracted meeting is in progress at Smallhouse church. Revs. Brown and G. H. Lawrence are the preachers in charge.

Mr. John Rowe has put up 1,000 cans of tomatoes this season and has five hundred more to fill, having gathered the tomatoes before the frost.

Mr. Murray Fulkerson has moved with his family into the house with his mother, Mrs. Harriet Fulkerson.

PRENTISS.

Nov. 2.—Rev. A. B. Gardner, assisted by Dr. A. S. Pettie, of Hartford, is conducting a series of meetings at this place. Dr. Pettie is doing excellent preaching.

Miss Ellen Carter, of Richland Springs, Texas, visited her cousin, Mrs. Tichenor, near here, last week.

Mr. John Chapman and family, of Simmons, and Mr. ——— Burton and family, of McHenry, visited Mr. and Mrs. Willis Southard Saturday and Sunday.

Mr. and Mrs. Graven Penley, of the Monticello neighborhood, visited relatives near here Saturday and Sunday.

Mr. and Mrs. Thos. Shields left for their home in Kansas, recently, after visiting relatives near here.

Mrs. J. W. Baker, of near Ceralvo, is visiting relatives and friends in this vicinity.

Mr. Logan Stevens and family moved from Hartford back to his father's near here one day last week.

Mr. Ira Plummer, of Simmons, visited his father, Mr. D. Plummer, and family near here Sunday.

Mrs. Z. Arbuckle and children have moved back from Arkansas to their home here.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. Send for testimonials from this and other States. Dr. E. W. Hall, 2926 Olive Street, St. Louis, Mo. Sold by druggists. 1y1

To Be Spent in United States.
New York, Oct. 31.—The \$10,000,000 French Government loan arranged for with the banks here will be all spent in this country to purchase war supplies. This was learned to-day.

In this connection it became known to-day that the National City bank has loaned \$3,000,000 to Norway.

Experiments have been so satisfactory that the Greek army will form an automobile battalion with 400 motor trucks.

KING ALBERT ASKS AID TO ASSIST HIS PEOPLE

Urges Americans To Assist People In Famine Of Coming Winter.

London, Oct. 31.—Albert, King of the Belgians, has asked the American people through the American Commission for relief in Belgium, to help feed his starving people during the coming winter.

The King's message, written under fire in the battle before Dunkirk, follows:

"I am informed that American officials and citizens in Belgium and England are working to save my people from the horrors of the famine which now threatens them. It is a great comfort to me in this hour of sorrow and misfortune to feel that a great-hearted, disinterested people is directing its efforts to relieving the distress of the unoffending civilian population of my country.

"Despite all that can be done the suffering in the coming winter will be terrible, but the burden we must bear will be lightened if my people can be spared the pangs of hunger, with its frightful consequences of disease and violence.

"I confidently hope that the appeal of the American Commission will meet with a generous response. The whole-hearted friendship of America shown my people at this time always will be a precious memory.

(Signed) "ALBERT."

The American Commission for Relief in Belgium is an official body recognized by the various governments for the transmission of food-stuffs into Belgium. It is the only channel through which food can be introduced into Belgium and by its association with a commission in Belgium has the only efficient agent for distribution of food in that country. H. C. Hoover is chairman of the commission, which has headquarters in London.

OLATON.

Nov. 1.—This is a beautiful morning with a fine frost—just the thing to take the sap from corn so it can be gathered. It is also a fine time for hog killing, but few have killed yet. Mr. John Cooksey has killed one, supposedly to avoid paying 20 cents per pound for bacon.

Mr. Geo. W. Daniel and family left this morning for their new home in Owensboro. They have the best wishes of all.

Rev. Hunt, of the M. E. Church, is conducting a series of meetings at Cedar Grove.

The two Sunday Schools at this place are getting along nicely. One is held in the morning and the other in the afternoon, so that they can help each other.

Mr. Frank Duncan has sold what is known as the Davison dwelling and storehouse at Davison Station to Pink Pentress and son. Consideration, \$525.

Mrs. Vena Loyal, of Narrows, is visiting her brother, Wayne Boswell, Olaton, Route 1.

Mr. Ike Ford has moved his sawmill to Mrs. Rilla Daniel's and is sawing a new barn pattern for her.

Mr. Fonzo Weedman is giving his residence a new coat of paint.

Mr. Albert Wing has shipped a fine lot of apples from here to the Evansville, Ind., market.

The show that was to have been at Olaton schoolhouse failed to materialize last Thursday night.

Mr. Trip Cooksey and two daughters, of Kansas, are visiting his brother, Mr. John Cooksey, and other relatives and friends in this community.

Misses Lula Moseley, Frena Saltzman and Myrtle E. Canan attended the Cedar Grove church Saturday night and Sunday.

SCORE OF WOMEN ARE KILLED BY GERMAN BOMBS

London, Oct. 31.—Two German aeroplanes recently dropped two bombs at Bethune, France, according to the correspondent of the Daily Mail in Northern France. The first failed to explode, but the second, which fell among market women, killed nineteen of them and injured forty others.

Two bombs were also dropped at Dunkirk on the same day from a Taube machine 9,000 feet up in the air. A woman and child were killed and all windows in the neighborhood were smashed. The women of the town are terrified.

Former Hartford Citizen Honored.
Saturday evening Louisville Times says:

At the next meeting of the Outdoor Art League, November 6, the matter of the city's fall cleaning is to be considered. Mrs. John H. Miller, chairman, will be in charge of the program, which promises to be

full of interest. Mayor Buschmeyer is to speak. Mr. S. A. Anderson, of the Crescent Hill Forward Club; Miss Pauline Eckenroth, of the Clifton Improvement, are also to talk. Mr. Caldwell, of the Board of Public Works, will be at the meeting and many civic clubs and schools, both public and private, are to send representatives to what promises to be a great municipal house-cleaning fest. Everybody is invited!

Note—The many friends of Mr. S. A. Anderson in Hartford, are pleased to note his rapid strides in forging to the front in the civic and public affairs of the metropolis of our State.

CAUGHT FLYING BULLET AT ITS EXTREME HEIGHT

London, Oct. 31.—A French aviator is reported to have brought down from the skies a German rifle bullet which he had caught in his hand.

The story goes that he was flying at a height of about 7,000 feet when he suddenly became aware of a small black object close to his hand.

He thought it was an insect of some kind and was sufficient of an entomologist to realize that a flying insect at such an altitude was a curiosity.

So he stretched out his hand and grasped what to his astonishment proved to be a bullet.

He explained afterward that it had been fired almost vertically, and had reached its utmost elevation.

He arrived in his aeroplane just at the moment when the bullet slowly turned over and was about to fall again.

RUSSIANS WILL GO OUT OF LIQUOR BUSINESS

The Russian Government has in the past secured a revenue of between four hundred and five hundred million dollars annually from its monopoly in the sale of alcoholic liquors. At present, the greater part of Russia is living under prohibition, promulgated as a war measure; but the Czar has announced that the Government will go out of the liquor business and stay out. As a revenue producer, Russia is to have the income tax, and it will doubtless be a drastic statute. Taxing incomes has long been one of the favorite systems of raising public revenue in Great Britain, France and Germany. Curiously enough, the United States and Russia have been the last of the more powerful nations to adopt this form of taxation.—[Louisville Post.

Hallow'een Party.

ant Hallow'een party was given by the girls at the home of Mrs. W. B. Render. The house was appropriately decorated with green, yellow and black and lighted by Jack-o'-lanterns. When the guests began to arrive weird music was played. Misses Nancy Ford and Lelia Glenn received and Mrs. Carlisle Render, disguised as a witch, told fortunes. Everyone having arrived and guesses shrewd and otherwise having been made as to who was who and why, the word was given to unmask. Games followed, after which refreshments consisting of candy, bananas, apples and nuts were served. Those present were:

Parke Taylor, Mattie Duke, Ross Taylor, Gayle Tichenor, Hoyt Taylor, Nancy Ford, Estill Barnett, Louise Phipps, Aaron Ross, Geneva Brown, Arthur Kirk, Beulah Moore, Lee Robertson, May Whittinghill, Goodell Wooten, Lelia Glenn, Gilmore Keown, Evelyn Clark, J. B. Igleheart, Mary Austin Carson, Harold Holbrook, Beatrice Haynes, Worden Newbolt, Mary Laura Pendleton, Willis Lyons, Maurine Martin, Clarence Barnard, Ruth Riley, Herschel Ross, Elizabeth Moore, John Glenn, Clara Robertson, Howard Glenn, Edna Elliott, McDowell Fogle, Lucile Pirtle, Fred May, Katie Pendleton, Marian Crowe, Nella Alford, Smith Hoover, Keener Napier, Otis Howard, Gorin Flener, Wilbur Rhoads, Norine Barnett, Edgar Barnard, Eva Butler, L. C. Acton, Anna Lee Taylor, Margaret Williamson.

The Ad Does It.

Louis J. Horowitz praised advertising at a dinner at his beautiful Riverside Drive apartment overlooking the Hudson.

"I am a firm believer in advertising," said Mr. Horowitz. "I impute a great part of my own business to it."

Here Mr. Horowitz's sunburnt and healthy face was illuminated by one of his rare and charming smiles.

"When a duck lays an egg," he said, "she waddles back to the duck pond in indifferent silence. But when a hen lays an egg her frantic cackles make it known."

"And that, my friends, is why the world eats hens' eggs instead of ducks' eggs."

The Eskimo pays his doctor his fee as soon as he arrives. If the patient recovers it is kept; if not, it is returned.

QUALITY GOODS AT REASONABLE PRICES

QUALITY IS THE THING YOU WILL KNOW IS HIGH WHEN YOU BUY YOUR DRESS GOODS AND MATERIALS FROM US. OUR SHADES ARE CORRECT. OUR TRIMMINGS MATCH. THE LEADING LOOMS OF THE WORLD HAVE CONTRIBUTED TO OUR STOCK.

IF IN DOUBT ABOUT WHAT TO BUY, COME TO US AND WE SHALL GLADLY HELP YOU SELECT. IT IS A PLEASURE TO US TO SHOW OUR GOODS AND WE NEVER URGE YOU TO BUY. WE LEAVE THAT TO OUR GOODS AND PRICES.

CARSON & CO.

INCORPORATED.

Hartford, Kentucky.

Repaired by the SCHEMME Process

We are going to install our Cast Iron Welding Machine Nov. 9th. We can weld Steel, Brass, Cast Iron, Aluminum or any other metal or any other two metals together, also broken cog wheels, cracked auto engines. The above cut shows some of the work of the machine. Anyone having anything of the kind that needs repair bring it to

WILLIAMS & MILLER,
Beaver Dam, Kentucky.

SULPHUR SPRINGS.

Nov. 2.—The typhoid sufferers in this section are just about holding their own with no new cases that we have heard of.

T. D. Cox and wife, of Amy, Kan., have been visiting Mr. Cox's brother, Albert Cox, for several days. They left this morning for Lawrenceburg, Lexington and Versailles to visit relatives for about two weeks, when they will return to their home. Mr. Cox is one of the Kentucky boys who took Horace Greeley's advice about 30 years ago and has prospered. He threshed 4,000 bushels of wheat this season and several hundred bushels of rye, oats and barley.

RALPH.

Oct. 31.—The debating society at this place is progressing nicely with Mr. Devert D. Moseley as president. Everybody invited.

Mr. J. L. Patton visited his brother, Mr. C. L. Patton, at Newburg, Ind., last week.

Two of Ralph's most popular young people, Mr. Alva Westerfield and Miss Eunice Ralph, were united in wedlock on Sunday, October 25, 1914, about 3:30 p. m. at the home

of the bride, Mr. and Mrs. T. L. Ralph, by Rev. J. B. Rayburn. Their many friends wish them a long, happy and prosperous married life. They will reside at the home of the groom's mother, Mrs. Florence Westerfield.

Mr. and Mrs. Henry Lee Ralph and children, of Owensboro, are visiting relatives here this week.

Rev. W. D. Cox, of ———, is conducting a series of meetings at New Panther Creek.

Miss Leathel Patton went to Whitesville Saturday afternoon.

Rev. J. B. Rayburn, who was sent back on the North Hartford circuit, will fill his regular appointment here the second Sunday and Sunday night.

Cheaper Price on Turkeys.
Carlisle, Ky., Oct. 31.—Ten to eleven cents per pound for turkeys for the opening of the Thanksgiving market is the prediction made by some of the turkey men here. They report that the crop is one of the largest in years, but say that the turkeys are generally poor. The market opens here November 10.
